History

Deerfield is located just south of Asheville, NC, at 1617 Hendersonville Road (Highway 25 South). Current operations are situated on a 125-acre tract of property, a mix of meadow and wooded acreage. Adjacent to the Blue Ridge Parkway, Deerfield is convenient to shopping, the regional airport, interstate highways, hospitals and physicians, local colleges and universities and a variety of recreational and cultural opportunities.

Deerfield is comprised of 378 independent living units, 62 assisted living units, 62 nursing beds and supporting common areas and amenities.

While there are various types of contract structures within retirement communities, two of the more common are a fee-for-service contract and the LifeCare contract. Under a fee-for-service contract, an entrance fee is paid for the life use of a dwelling. Individuals then pay a monthly maintenance fee covering specified services while occupying the residence. In the event the occupant must move to a higher level of care, i.e. assisted living or skilled nursing care, the individual would begin paying the higher monthly fee associated with that particular level of care. In cases involving couples, while both Residents are residing in an independent level of care, they pay the monthly fee associated with that level of care. However, should one of the couple need to move to health care, they would then pay both the higher health care rate and the monthly rate for the original residence still being occupied by the spouse.

The second type of contract is LifeCare. Under this plan, the individual pays an entrance fee for the desired independent living residence and the associated monthly fee. If and when it becomes necessary to move to a higher level of care, the Resident will continue being charged the monthly fee that was in effect for their independent living unit. The only increase in monthly fees would be for additional meals, charge for a room larger than standard room (if larger room is desired), and services not covered within the contract. In a situation involving couples, should one spouse transfer to a higher level of care, the monthly rate will not be changed from that previously paid. The only change would be a charge for two additional meals per day, charge for a room larger than standard room (if larger room is desired), and any additional ancillary services or supplies.

Deerfield operated as a fee-for-service community for many years; however since 1999, all new independent living contracts offered are LifeCare. All existing fee-for-service contracts will remain in effect. In the sections that follow, regarding policies and fees, anything not applicable to both types of contract will be identified.

As of January 31, 2021, there were 634 individuals residing at Deerfield.

POLICIES

Admission Requirements

Any individual age 62 or older is eligible for admission to Deerfield. Except as to age, Deerfield's admission policies are non-discriminatory. Deerfield is open to both married and single men and women of all races, religions and sexual orientation.

Health Criteria

Any individual who plans to enter a level of independent living at Deerfield must be able to care for his/her self, possessing the mental and physical condition required for performing all necessary activities of daily living for that particular area of residence. Prior to admission, the Resident's physician must provide the results of a physical examination and an updated medical history. Such report shall include a statement that the Resident is in good health, can move about independently and is able to perform activities needed for independent living. Deerfield may require the Resident to have another physical examination by the Medical Director or by another

physician approved by Deerfield. The Resident shall be responsible for the costs of such physical examination. If the health of the Resident as disclosed by the physical examination differs materially from that revealed in the Resident's Application for Admission and Personal Health History, Deerfield shall have the right to decline the admission of the Resident and to terminate the Agreement, or at the discretion of Deerfield the applicant may take residence within the appropriate higher level of care. Once a Resident, the individual shall continue to live independently until he is physically or mentally unable to do so, in which event he has the option of moving to the appropriate level of care at Deerfield, as determined by Deerfield, or terminating the agreement.

Financial and Insurance Criteria

All applications for admission to Deerfield must be approved by the Admissions Committee of the Board. As a part of this approval process, the financial status of the applicant is reviewed to determine whether, given the applicant's age and state of health, the applicant has sufficient assets and income to reasonably expect that he/she will be financially self-supporting for life. Deerfield may require applicants and Residents to furnish updated financial information prior to and after admission.

Residents shall maintain Medicare Part A, Medicare Part B, and one supplemental insurance policy or equivalent insurance coverage acceptable to Deerfield. Deerfield participates in Medicare reimbursement programs. Individual Residents may purchase private long-term care insurance if they so desire.

Termination and Refund Policies – Fee-for-Service Contracts

Residence Agreements may be terminated by the Resident for any reason, by giving written notice to Deerfield. If the Residence Agreement is terminated prior to occupancy, a partial refund of any Entrance or Admission Fee will be paid by Deerfield to the Resident or the Resident's estate within the time specified by the Agreement. This refund will be calculated as follows:

The Entrance Fee (or admission fee if applicable) minus (i) any nonstandard costs incurred by Deerfield at the request of the Resident and described in the Residence Agreement, (ii) if the dwelling is not an existing structure but is to be constructed by Deerfield, a non-refundable fee of 10% of the Entrance Fee which is intended to cover Deerfield's costs representing the time, expertise, and expense associated with the construction of the dwelling. These costs include but are not limited to the preparation of the construction contract, financing, and supervision of the construction, (iii) any other non-refundable fees that are noted in the Residence Agreement and (iv) a reasonable service charge of \$1,000 or 2% of the Entrance Fee, whichever is greater.

No non-refundable fee or service charge will be assessed if such termination is because of the death of the Resident, or because the Resident's physical, mental, or financial condition makes the Resident ineligible for admission to Deerfield.

Deerfield does not intend to use the fee-for-service contract for future residents.

Termination Prior to Occupancy-LifeCare Contracts

The Residence and Services Agreement may be terminated for any reason prior to occupancy by giving written notice to Deerfield. A refund of the Entrance Fee paid, less a non-refundable fee equal to 4% of the Standard Entrance Fee, will be made. The non-refundable fee will be waived

if termination is due to the death of the Resident, or because the Resident's physical, mental, or financial condition makes the Resident ineligible for admission to the community. Refunds will be paid within sixty (60) days of receipt of written notification.

Termination by Residents after Occupancy-Fee-for-Service Contracts

The Residence Agreement may be terminated by the Resident upon giving 90 days notice of intent to terminate. In addition, the Residence Agreement shall be terminated upon the death of the Resident or in the event that changes in the Resident's health require that the Resident move from the dwelling.

In the event that the Residence Agreement is terminated by any of the above, a partial refund of the Entrance fee paid, calculated as follows, will be paid by Deerfield to the Resident or Resident's estate within six (6) months after termination:

The Entrance Fee reduced by 1% for each full month between the date the unit became available for occupancy and the date of termination. Refunds shall be a maximum of 90% and a minimum of 20% of the Entrance Fee. If, within the first 180 days of occupancy, the Residence Agreement is terminated by the Resident or due to the Resident's death, a portion of the Admission Fee will be refunded to the Resident or Resident's estate.

Termination by Residents after Occupancy-LifeCare Contracts

At any time after occupancy, the Resident may terminate the Residence and Services Agreement by giving Deerfield written notice of such intent. Refunds of entrance fees paid will be made according to the refund option originally selected by the Resident. A breakdown of each option is as follows:

Standard Entrance Fee Option- the Resident shall receive a refund in an amount equal to the Standard Entrance Fee paid less 2% for each month of residency for up to 48 months and less a 4% non-refundable fee. Refunds under this option shall be paid within 60 days of vacating the dwelling.

50% Refund Option-Those Residents choosing this option shall receive a refund in an amount equal to the entrance fee paid reduced by 2% per month, for up to 23 months and less a 4% non-refundable fee. At no time shall the refund be less than 50% of the entrance fee paid. Refunds under this option shall be paid within 60 days of vacating the dwelling. The 50% Refund Entrance Fee Option is not available to persons over the age of 85 years. The age of the older resident is used in making this determination.

90% Refund Option- Those Residents selecting this option shall receive a refund in the amount equal to the entrance fee paid, reduced by 1% for each month of residency for up to six months and less a 4% non-refundable fee. At no time shall the refund be less than 90% of the entrance fee paid. Refunds under this option will be made after the residence has been reserved by Deerfield's receipt of full payment of the entrance fee by a prospective resident or within one year from the date of termination of the Agreement, whichever occurs first. The 90% Refund Entrance Fee Option is not available to persons over the age of 85 years. The age of the older resident is used in making this determination.

In the event of the death of the Resident, the agreement shall terminate and the refund will be calculated as described above.

Termination of Agreements By Deerfield (Both Fee-for-Service and LifeCare)

Deerfield may terminate agreements as follows:

1. In the event the Resident fails to comply with the provisions of the Agreement;
2. In the event the Resident fails to comply with such rules and regulations as Deerfield may establish;
3. In the event the Resident fails to pay the monthly maintenance fee or any other required charges as specified by the Agreement, or by the rules and regulations of Deerfield;
4. In the event the Resident abandons the dwelling;
5. In the event there has been a material misrepresentation or omission made by the Resident in the Resident's Application for Admission, Personal Health History, or Confidential Financial Statement.

With reference to above items, Deerfield shall give the Resident written notice of the Resident's violation or default; if the violation or default is of a type which can be corrected and the Resident does not correct the violation or default within 30 days of Deerfield's notice, or if the violation or default is of a type which cannot be corrected, then this Agreement shall automatically be terminated upon the expiration of such 30 days following notice. In the event of termination for such causes, refund of the entrance fee will be made as previously noted.

Trial Period- (LifeCare Contract Only)

Under LifeCare contracts, the first sixty (60) days of occupancy at the community will be considered to be a Trial Period. During this Period, the Resident will have the right to terminate the Residence and Services Agreement by giving Deerfield written notice of termination. In the event of such termination by the Resident, or in the event of the death of the Resident, a full refund of the entrance fee paid minus a 4% non-refundable fee will be made. During this sixty (60) day trial period, Deerfield shall have the right to terminate the Agreement based upon Deerfield's determination that the Resident's physical, mental, or emotional condition will not allow adjustment to the living environment at the Community. In the event of such termination, Deerfield will refund the full entrance fee paid by the Resident. Any refund due under "Termination within the Trial Period" shall be paid within sixty (60) days after the residence has been vacated by the Resident.

Rescission-Fee-For-Service

In accordance with NC General Statute 58-64-25, a Resident may rescind the Residence and Services Agreement within thirty (30) days following the later of the execution of the contract or the receipt of Deerfield's formal disclosure statement. If the Residence Agreement is rescinded under this statute, the Resident or the Resident's legal representative shall receive a refund of all money or property transferred to Deerfield minus (i) periodic charges specified in the Agreement and applicable to the period a living unit was actually occupied by the Resident; (ii) any non-standard costs incurred by Deerfield at the request of the Resident and described in the contract amendment signed by the Resident, (iii) any non-refundable fees noted in the contract; (iv) a reasonable service charge, if set out in the contract, not to exceed the greater of one thousand dollars (\$1,000) or two percent (2%) of the entrance fee.

Rescission-LifeCare Contract

The Residence and Services Agreement may be rescinded by the Resident by giving written notice of such rescission within thirty (30) days following the later of the execution of the Agreement or receipt of Deerfield's approved disclosure statement. In the event of such rescission, the Resident shall receive full refund of any entrance fee paid. The Resident shall not be required to move into the community before the expiration of such thirty (30) day period. Any such refund will be paid by Deerfield within sixty (60) days following the receipt of written notice of rescission.

Transfers or Changes In Levels of Care

Deerfield shall have the authority to determine that the Resident is in need of a higher level of care. Such a determination shall be based on the professional opinion of the Director of Health & Wellness, the President/CEO, and the Medical Director of the Community. Such a determination shall be made only after consultation to the extent practical with the Resident, representative of the Resident's family, and the Resident's attending physician.

If it is determined by Deerfield that the Resident needs care beyond that which can be provided by Deerfield, the Resident may be transferred to a hospital or facility equipped to provide the necessary care. The Resident will be responsible for any expenses associated with such a transfer. Transfer to a hospital or other facility will be made only after consultation to the extent practical with the Resident, or a representative of the Resident's family, and the Resident's attending physician. If a determination is made by Deerfield that any transfer is probably not temporary in nature, the Resident agrees to surrender the Residence or any other accommodation in the Community occupied by the Resident prior to such transfer. If Deerfield subsequently determines that the Resident can resume occupancy in Residence or accommodations comparable to those occupied by the Resident prior to such transfer, the Resident shall have priority to such accommodations as soon as they become available.

Occupancy by Two Residents-LifeCare

In cases where two Residents occupy a dwelling, if there is a change in circumstances with respect to one of the Residents (i.e. death, change in health status, or termination of the Agreement with one the Residents), the Residence and Services Agreement will continue in effect for the remaining Resident. The surviving (or remaining) Resident will have the option of either remaining in the same residence or moving to a smaller residence. If the Resident chooses to move to a smaller unit, any refund due will be paid in accordance with terms of the Residence and Services Agreement. In the case of LifeCare contracts, the monthly fee will be reduced to the single person rate of the smaller unit, in the event of death or termination of the second person contract.

Marriages/New Second Occupant Under Existing Fee-for-Service Contract

Any person currently a Resident under a Fee-for-Service contract and choosing to marry, other than another Resident, will be assessed the current charge of \$2,500 for addition of that person under Deerfield's Resident Services Agreement. If one of the persons marrying has already paid the Admission Fee for a couple, (currently \$7,500), no assessment will be made. Although this is the basic policy, each case will be considered as it arises.

If a Resident of a cottage or apartment marries, there will be no increase in the monthly fee. If the Resident resides in an Assisted Living room and the new spouse plans to share the room, there will be an increase in the monthly room and board charge to reflect the second person.

Marriage/New Second Occupant Under LifeCare Contract

If two Residents marry one another, they may occupy the residence of either Resident and shall surrender the unoccupied residence. No refund will be paid for the surrendered Residence except for Agreements in which the Resident selected either the 50% or 90% Entrance Fee option or if, in the case of the Standard Refund Option, the residence was occupied for less than 48 months (in accordance with LifeCare contracts). The residents will then pay the monthly fee for double occupancy associated with the Residence they occupy. In situations in which a Resident marries a non-Resident of the community, the non-Resident spouse may become a Resident if he/she is able to meet all the current admission requirements, enters into a then current version of the Residence and Services Agreement, and pays an Entrance Fee in an amount determined by Deerfield in its discretion. Such a fee will not exceed more than 50% of the then current entrance fee associated with the type of Residence occupied by the Resident and Spouse. If the Resident's spouse does not meet the requirements for admission, the Resident may terminate this Agreement with the same provisions as previously outlined in Voluntary Terminations.

Inability to Pay

If the Resident and the Resident's guarantors, if any, become insolvent during the continuance of any contract and are unable to pay the monthly fees, the Resident may apply for financial assistance through Deerfield's Residency Fund (also known as benevolent assistance). Such assistance is available only in cases of involuntary hardship, with actual need clearly demonstrated. The Resident must show to Deerfield's satisfaction that no transfer of an asset of the Resident has been made for less than its full fair and actual value within (i) 10 years before an application is made to the Residency Fund or (ii) 7 years before the Resident first occupied a living unit at Deerfield, or (iii) at any time when it reasonably might have been anticipated that the Resident ever would become insolvent. If Deerfield is satisfied of the Resident's eligibility, then financial assistance will be made available from the Residency Fund in relation to (i) the Resident's need, (ii) the needs of the Residents similarly eligible and (iii) the principal and income available in the Residency Fund.

FEES

Reservation Deposit

Prospective Residents begin the application process by executing either a Future Residency Agreement or Reservation Agreement. Availability of inventory and the Resident's desired date of entry to Deerfield determine which Agreement is executed. If the Resident plans a move in the immediate future and there is a residence available, the Reservation Agreement would be selected. This agreement allows the Resident to choose a specific Residence and freeze the Entrance Fee. If entry is at some unspecified future date or no residence is available, the Future Residency Agreement would be chosen. While it does not freeze the Entrance Fee, the Future Residency Agreement does provide the individual with a priority number, and lists the type of residence preferred and the approximate date the move is desired.

A \$1,000 Reservation Deposit will be paid at the time the Resident enters into either the Reservation Agreement or the Future Residency Agreement. This deposit will be credited towards any future Entrance Fees.

Within 30 days of execution of the Future Residency Agreement or 15 days for the Reservation Agreement, the applicant will submit completed application forms including an Application for Admission, Personal Health History, and Confidential Financial Statement. Within 30 days of receipt of these forms, the Admissions Committee will approve or deny the application for admission based upon the admission criteria and policies established by the Board of Directors. Residents may terminate either the Future Residency Agreement or Reservation agreement at any time prior to occupancy by giving written notice to Deerfield. A full refund of any Future Residency Agreement deposit that was made before December 31, 2000 will be made within the time specified by the Agreement. A refund of one-half of any Future Residency Agreement deposit made after December 31, 2000 will be made within the time specified by the Agreement.

Deerfield may terminate the Future Residency Agreement or Reservation Agreement at any time if there has been a material misrepresentation or omission in the future Resident's Application for Admission, Personal Health history, or Financial Statement. In the event of such termination, the Reservation Deposit is non-refundable.

Deerfield may terminate an Agreement if the applicant does not meet the admission criteria as established by the Board. Upon such termination, Deerfield shall notify the prospective Resident of the reason for non-acceptance of admission and Deerfield shall return the Reservation Deposit in full within 30 days of such notice of termination.

Admission Fee

At this time the only Admission Fees are for direct admission into either Assisted Living or Skilled Nursing care from the outside community. The fee for direct admission to Assisted Living is \$28,188 per resident. This will give the Resident up to 15 days annually, non-cumulative, without charge in skilled nursing care. It will also ensure a permanent bed in skilled care should it become necessary. For direct admission to Skilled Nursing Care, there is a \$9,401 per resident admission fee; however, there will not be 15 days per year without charge. As is the current practice, a portion of any Admission Fee paid will be refundable for the first 180 days.

Entrance Fees – Fee-for-Service Contracts

Residents under Fee-for-Service Contracts paid an Entrance Fee at the time of entry that was unique to that particular residence. This fee entitles the Resident to the lifetime occupancy of the residence, to receive specified services, and the use of all amenities. The Entrance Fee amortizes to Deerfield over a period of 80 months with a declining balance, which is refunded when the unit is vacated and turned over to Deerfield. Refunds will be a maximum of 90% and a minimum of 20% of the original Entrance Fee.

Entrance Fee – LifeCare Contracts

Residents under the LifeCare contract pay an Entrance Fee which is established at the time the 10% deposit is made. The Entrance Fee entitles the resident to the use of the residence and services listed in the Residential Services Agreement. Entrance Fees are based upon the type of dwelling, whether or not there will be a second occupant and the Entrance Fee Refund Option selected. As was previously noted, Residents may choose from three refund options.

They are:

- Standard option which amortizes at 2% per month over 48 months with a 4% non-refundable fee. No refund after 48 months.
- 50% refund option which amortizes at 2% per month over 23 months with a 4% non-refundable fee. Refund will never be less than 50%. To determine the amount of this fee option, multiply the standard option by 1.33. The 50% Refund Entrance Fee Option is not available to persons age 85 or older. The age of the older resident is used in making this determination.
- 90% refund option which amortizes at 1% per month for 6 months with a 4% non-refundable fee. Refund will never be less than 90%. To determine the amount of, multiply the standard option by 1.85. The 90% Refund Entrance Fee Option is not available to persons age 85 or older. The age of the older resident is used in making this determination.

Options that guarantee a refund must be selected prior to making final payment on the residence.

Monthly Fees

There are monthly fees associated with all areas of residence at Deerfield. Below are descriptions and rates:

Cottages and Apartments – Fee-for-Service Contract

Under the Fee-for-Service contract there is a monthly maintenance fee. This fee increases as the Resident moves to higher levels of care. There is no additional charge for a double occupancy. When the Resident must give up the cottage or apartment due to the need for a higher level of care, the Resident would begin paying the monthly fee associated with the new level of care. In situations involving double occupancy, should it be necessary for one Resident to move to a higher level of care, that Resident would then begin paying the monthly fee associated with the higher level of care, while the Resident remaining in the dwelling would continue paying the same monthly rate previously paid. Current monthly fees vary depending on when the Resident entered. The current monthly fee for cottages and apartments for anyone who entered after October 1, 1989 is \$1,186.

Cottages and Apartments – LifeCare Contract

Under the LifeCare Contract, there is a monthly maintenance fee, which varies according to the unit type. An additional fee will be added for all double occupied units. When movement to Health Care becomes necessary, the monthly fee will remain tied to that paid while in the original dwelling. The only additional fees associated with a move to a higher level of care are for two additional meals per day, charge for a room larger than standard room (if larger room is desired), and any ancillary services or supplies.

The monthly fee for a single occupant through September 30, 2021 will vary from \$2,909 to \$ 4,950. An additional \$1,385 will be added for double occupancy.

Health Care – Direct Admission Changed

For the Health Care Center, rates will be as follows (with the exception of those under a LifeCare contract):

Deluxe assisted living suite	\$6,354
Double assisted living suite	\$6,354
Standard assisted living suite	\$4,966
Grande Suite	\$6,809
Second Person fee	\$4,054
Nursing-Private Room	\$ 315 – per day
Nursing-Private Room (shared bath)	\$ 257 – per day
Nursing-Private Room (large)	\$ 333 – per day

All Monthly Fees are made to provide the facilities, programs, and services described in the Residence and Services Agreement and are intended to meet the cost of the expenses associated with the operation and management of the Community. Deerfield shall have the authority to adjust the Monthly Fee from time to time during the term of the Agreement as Deerfield in its discretion deems necessary in order to reflect changes in costs of providing the facilities, programs, and services as described in the agreement and consistent with operating on a sound financial basis and maintaining the quality of services called for by the agreement. In the event that it should be determined that Deerfield is required to pay sales tax or ad valorem taxes upon

its property, the Monthly Fee may be adjusted to reflect the amount of such taxes. Any such increases in the Monthly Fee or other charges may be made by Deerfield upon thirty (30) day written notice to the Resident.

FINANCIAL INFORMATION

Reserves, Escrows, and Trusts

Deerfield maintains a Long Term Investment Fund sufficient to provide reserve funding, security, and the meeting of Deerfield's obligations. In addition to this, in compliance with N.C.G.S. 58-64-33 Deerfield has established an operating reserve. This reserve must equal 50% of the total operating costs projected for the 12 month operating period following the period covered by the most recent annual disclosure statement filed with the Department of Insurance or 25% of such total operating costs, if occupancy is in excess of 90%.

Deerfield currently has an occupancy rate more than 90%. See Summary of Significant Assumptions to Financial Forecasts. Based on the financial forecasts compiled by Clifton Larson Allen management believes that Deerfield will possess sufficient reserves to satisfy the Operating Reserve Requirement shown as follows:

Operating Reserve Requirements as of March 1, 2021	
Total Operating Expenses	\$35,761,000
Add Principal Payment	2,910,000
Less Depreciation	(6,330,000)
Less Amortized Expenses	-0-
Less Extraordinary Items	-0-
Less Debt Service	-0-
Operating Cost	\$32,341,000
Occupancy Factor	<u>x25%</u>
Total Operating Reserve	
Required March 1, 2021	\$ 8,085,000

As is required by N.C.G.S. 58-64-33 (b), this reserve has been funded in order to meet the requirements for 2021.

The Operating Reserve is held in an account managed by Fund Evaluation Group. These monies are invested in various equity and fixed income securities and may be invested in other investments from time to time. Deerfield maintains accounts for monies whose use is limited as to use. These funds include funds that the trustee maintains pursuant to the terms of the Master Indenture for the Series 1997, 2008, 2014 and 2016 Bonds and funds to be used to provide assistance to residents who are unable to pay ("Residency Fund"), funds for Renewal and Replacement Funds and Mission Advanced Funds. See Notes to the Compilation of a Financial Forecast for more details.

Management of the Long Term Investment Fund is the responsibility of Fund Evaluation Group, Cincinnati, Ohio, with the oversight of the Deerfield Finance Committee. Management of the funds that the trustee maintains pursuant to the Master Indenture Agreement is managed by U.S. Bank with the oversight of the Deerfield Finance Committee.

As of January 31, 2021, the following individuals had been appointed to serve on this committee:

Mr. Jeff Covington, Commercial Lender of Park National Bank
Mr. Larry Harris, CPA, Parsec Financial Wealth Management
Mr. Bob Burgin, Retired CEO of Mission Hospital
Mr. Gene Carr, Attorney, Carr, Blackwell and Associates
Mr. Glenn Mayes, CPA, Retired Chief Financial Officer of Asheville School,
Asheville NC

Mrs. Chris Dismukes, Retired from the Clinical field and active in the Episcopal Diocese
Mr. Jack Ingersoll, Retired Industrial Security Executive and current resident
Ms. Roba Whiteley, Retired Healthcare Executive

As is required by N.C.G.S. 58-64-33 (c), operating reserves can only be released with the approval of the Insurance Commissioner. It is the policy of Deerfield that the principal of the Long Term Investment Fund cannot be invaded unless by Board approval.

Tax Consequences

No information is provided herein with respect to the tax consequences under applicable federal, state and local laws of entering into a Residence and Services Agreement. The decision by a person to enter into a Residence and Services Agreement may have material tax consequences. Each person is urged to consult his or her own tax advisor with respect to any tax consequences of entering into a Residence and Services Agreement.

Future Service Obligation

Every year an independent Actuary calculates Deerfield Episcopal Retirement Community, Inc.'s Future Service Obligation ("FSO") (as defined by the AICPA Statement of Position 90-8) for the existing population of residents. This analysis determines whether Deerfield's remaining balance of deferred entrance fees plus the present value of future cash inflows is sufficient to cover the present value of future cash outflows. In the FSO calculation, the current resident population is treated as a "closed group" and the model assumes no new residents, no new entrance fees, and declining aggregate monthly service fee revenue and costs of service as the closed group diminishes. The model projects income and expenses until the last person in the group dies, as projected in the model's life expectancy tables.

If the FSO is calculated to be zero or a negative number, it suggests that the reserves are sufficient to meet the future needs of the current residents. If the FSO is positive, the corporation must book an additional liability. Deerfield does not need to book such a liability because as of September 30, 2020, its FSO is calculated to be negative.

DEERFIELD DEVELOPMENT AND EXPANSION

Deerfield completed a major expansion in March 2001. The expansion consisted of 170 apartments, 54 additional cottages, a new health care center offering assisted living and skilled nursing care, and a community center featuring amenities such as both formal and casual dining, library, exercise facilities, meeting rooms, and activity rooms. As older units turn over, rehabilitation will be done as necessary.

In June 2008, Deerfield began construction of a new expansion project on Deerfield's campus. The new expansion included 83 independent living units, 20 assisted living units, and 14 nursing units, and also included new and expanded common spaces.

In July, 2008, approximately \$98 million in bonds were issued to pay for the Project and other project related costs. The fill-up of the project began in June 2010. As of January 31, 2011, all parts of construction are complete.

In September of 2014, Deerfield began presales for 27 cottages/villas. As of December 31, 2014 all units were reserved. As of September 30, 2017, construction of all units are complete.

As part of our strategic planning efforts to serve our market while continuously adding amenities to our community, Deerfield is in the planning stage for the expansion of its community through the potential addition of independent living units, assisted living and nursing beds as well as common area improvements and additions. At this time, planning is ongoing and subject to many external factors before a decision can be made as to whether to proceed, including approval by the Department of Insurance.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Deerfield as of September 30, 2020 and 2019, and the results of its operations, and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The supplemental schedules listed in the foregoing table of contents are presented for purposes of additional analysis and are not a required part of the basic consolidated financial statements for the year ended September 30, 2020. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Notes to Consolidated Financial Statements

1. Description of Organization and Summary of Significant Accounting Policies

Organization

Deerfield Episcopal Retirement Community, Inc. (collectively "Deerfield") is a not-for-profit organization located in Asheville, North Carolina, that provides housing, health care, and other related services to residents through the ownership and operation of a retirement facility containing independent living units, assisted living beds, and nursing care beds. Deerfield was incorporated in North Carolina in 1955. Deerfield is a North Carolina licensed continuing care retirement community and is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF) International.

During 2019, Deerfield formed a subsidiary, the Deerfield Charitable Foundation (the "Foundation"). The purpose of the Foundation is to provide assistance to the retirement community and health facilities owned or affiliated with Deerfield. The Foundation had its first year of activity for the year ended September 30, 2020.

Use of estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of consolidation

The consolidated financial statements include the accounts of Deerfield Episcopal Retirement Community, Inc. and The Foundation (collectively, "Deerfield"). All material intercompany accounts and transactions have been eliminated in consolidation.

Basis of accounting and presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America.

Deerfield classifies its net assets as net assets with or without donor restrictions.

- *Net assets without donor restrictions* – resources of Deerfield that are not restricted by donors or grantors as to use or purpose. These resources include amounts generated from operations, undesignated gifts, and the investment in property and equipment.
- *Net assets with donor restrictions* – resources that carry a donor-imposed restriction that permits Deerfield to use or expend the donated assets as specified and is satisfied by the passage of time or by actions of Deerfield. This also includes resources that carry a donor-imposed restriction that stipulates that donated assets be maintained in perpetuity, but may permit Deerfield to use or expend part or all of the income derived from the donated assets.

Cash and cash equivalents

Cash and cash equivalents include certain investments in highly liquid instruments with original maturities of three months or less from the date of acquisition.

Accounts receivable

Deerfield considers accounts receivable to be fully collectible; accordingly no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made. Management does not expect these amounts to be material. Generally, no finance charges are assessed on trade receivables.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value based on quoted market prices in the consolidated balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in excess of revenues over (under) expenses.

Fair value measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Deerfield utilizes market data or assumptions that market participants would use in pricing the asset or liability. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used when measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

Assets limited as to use

Assets limited as to use by board designation include (1) assets set aside to meet the operating reserve requirements of North Carolina General Statute Chapter 58, Article 64, (2) a benevolent fund, representing assets set aside by the Board of Directors for benevolent assistance for residents, (3) a renewal and replacement fund set aside by the Board of Directors for renewal and replacement of property and equipment, and (4) other amounts set aside by the Board of Directors to meet the mission of Deerfield. The Board retains control over these assets and may at its discretion subsequently use them for other purposes. Assets whose use is limited under a bond indenture agreement consist of monies set aside in accordance with loan agreements. Assets whose use is limited under donor restrictions are restricted for various activities as described in Note 5. Assets limited as to use that are required to meet current liabilities of Deerfield have been classified as current in the balance sheets at September 30, 2020 and 2019.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation. Contributed property is recorded at its estimated fair value at the date of receipt. Depreciation is computed on a straight-line basis for all depreciable assets over estimated useful lives.

Deerfield periodically assesses the realizability of its long-lived assets and evaluates such assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. For assets to be held, impairment is determined to exist if estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. For assets to be disposed of, impairment is determined to exist if the estimated net realizable value is less than the carrying amount. Deerfield has determined that there are no indicators of impairment at September 30, 2020 and 2019.

Concentration of risk

Deerfield's operating funds, comprised of cash and cash equivalents, are held by a certain financial institution. At various times throughout the year, Deerfield had deposits at the bank in excess of the amounts covered by federal depository insurance. Management believes the credit risk related to these deposits is minimal.

Deferred financing costs

Deferred financing costs are included in bonds payable on the consolidated financial statements and amortized using the straight-line method over the terms of the related financing. Accumulated amortization of deferred financing costs totaled \$314,563 and \$252,263 at September 30, 2020 and 2019, respectively.

Parking fees

Deferred parking revenue is amortized into income using the straight-line method over the estimated remaining life expectancy of the resident, adjusted on an annual basis. Refundable parking fees represent the portion of the payment of parking fees that will be refunded to the resident when parking is no longer required.

Admission deposits

Admission deposits consist of reservation deposits and admission deposits. Deerfield collects a reservation deposit of \$1,000 to save a space on the future occupancy list for a residential unit. An admission deposit of 10% of the entrance fee, less the reservation deposit, is received when a unit is available and a reservation agreement is executed. When the 10% admission deposit is received, a residential unit is considered reserved. The reservation agreement may be terminated by the prospective resident prior to taking occupancy by giving written notice to Deerfield. In the event of withdrawal from the future occupancy list or a termination of the reservation, the resident receives a refund for a portion of the deposit paid by the resident, without interest.

Refundable entrance fees

Entrance fees for independent living accommodations are deferred when received. A portion of these fees is refundable when the residency contract is terminated. Residents have the choice of three types of entrance fee refund programs:

- Standard refund plan (the "Standard Plan");
- 50 percent refund plan (the "50% Refund Plan"); and
- 90 percent refund plan (the "90% Refund Plan").

Under the terms of the Standard Plan, a resident terminating the Residence & Services Agreement during the first 60 days of occupancy (the "Trial Period") is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. If the resident terminates the Residence & Services Agreement after the Trial Period, the refund is reduced by 2 percent of the amount of the entrance fee paid per month of occupancy for 48 months, plus a 4 percent non-refundable fee. Thus, there is no refund after 48 months of occupancy.

Under the terms of the 50% Refund Plan, a resident terminating the Residence & Services Agreement during the Trial Period is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. If the resident terminates the Residence & Services Agreement after the Trial Period, the refund is reduced by 2 percent of the amount of the entrance fee paid per month of occupancy for 23 months, plus a 4% non-refundable fee. After 23 months, the resident receives a refund equal to 50 percent of the entrance fee paid.

Under the terms of the 90% Refund Plan, a resident terminating the Residence & Services Agreement during the Trial Period is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. If the resident terminates the Residence & Services Agreement after the Trial Period, the refund is reduced by 1 percent of the amount of the entrance fee paid per month of occupancy for 6 months plus a 4 percent non-refundable fee. After 6 months, the resident receives a refund equal to 90 percent of the entrance fee paid.

Deerfield Episcopal Retirement Community, Inc.
Notes to Financial Statements

The resident is required to confirm his/her selection of a refund plan at the time of final payment of the entrance fee and is not allowed to change refund plans without written approval of Management. Payment of refunds is due within 60 days of vacating the unit for the Standard Plan and 50% Refund Plan, whereas the payment of a refund for the 90% Refund Plan is due upon the earlier of re-occupancy of the unit by another prospective resident, or one year.

Total contractual refund obligations under existing contracts (that is if all residents with a refundable balance were to have withdrawn) totaled approximately \$34,343,000 and \$39,682,000 at September 30, 2020 and 2019, respectively.

Deferred revenue from entrance fees

Fees paid by a resident upon entering into a contract agreement, net of the estimated portion that is refundable to the resident, are recorded as deferred revenue and amortized into income using the straight-line method over the estimated remaining life expectancy of the resident, adjusted on an annual basis.

When the residency contract is terminated, the unamortized portion of the deferred revenue from non-refundable entrance fees is recognized as revenue. For the years ended September 30, 2020 and 2019, approximately \$1,702,000 and \$1,425,000, respectively, of deferred revenue from entrance fees related to such residents was recognized as revenue and included in amortization of entrance fees.

Deferred customization revenue

Deferred customization revenue includes funds collected from residents to cover non-standard costs incurred by Deerfield at the request of a resident for custom changes to reserved units. This amount is recognized as revenue using the straight-line method over the estimated life expectancy of the resident.

Excess of revenues over (under) expenses

The consolidated statements of operations include excess of revenues over (under) expenses. Changes in net assets which are excluded from excess of revenues over (under) expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which by donor restrictions were to be used for the purposes of acquiring such assets). Deerfield considers excess of revenues over (under) expenses to be its performance indicator.

Benevolent assistance

Deerfield has a policy of providing benevolent assistance to residents who are unable to pay. Such residents are identified based on financial information obtained from the resident and subsequent review and analysis. Since Deerfield does not expect to collect the normal charges for services provided, estimated charges for benevolent assistance are not included in revenue. The charges forgone, based on established rates, were approximately \$392,000 and \$390,000 for the years ended September 30, 2020 and 2019, respectively. The difference between the costs of providing such assistance and the revenue foregone is not significant in relation to the consolidated financial statements as a whole.

Social accountability

Deerfield provides building space to St. Giles Chapel, Buncombe County Council on Aging, and Mountain Area Health Education Center rent free. St. Giles Chapel provides spiritual support for Deerfield and the local community. Buncombe County Council on Aging's mission is to serve the elderly. Mountain Area Health Education Center's mission is to improve health outcomes in Western North Carolina. The dollar amount of space provided based upon local fair market value rental rates is approximately \$303,000 for each of the years ended September 30, 2020 and 2019. These contribution amounts are reflected in the consolidated statements of operations and changes in net assets as other income and as supporting services. Deerfield also provides numerous community benefits which include charitable donations and donated volunteer services in the amounts of \$1,255,000 and \$1,230,000 for the years ended September 30, 2020 and 2019, respectively.

Contributions

Deerfield reports contributions of cash and other assets as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of operations and changes in net assets as assets released from restrictions.

Deerfield reports contributions of property and equipment as additions to net assets without donor restrictions unless explicit donor stipulations specify how the donated assets must be used. Contributions of long-lived assets with explicit restrictions that specify how the assets are to be used and contributions of cash or other assets that must be used to acquire long-lived assets are reported as net assets with donor restrictions. Absent explicit donor stipulations about how long these assets must be maintained, Deerfield reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Obligation to provide future services

Deerfield enters into continuing-care contracts with various residents. A continuing-care contract is an agreement between a resident and Deerfield specifying the services and facilities to be provided to a resident over his or her remaining life. Under the contracts, Deerfield has the ability to increase fees as deemed necessary.

As of the end of each year, Deerfield calculates the present value of the estimated net cost of future services to be provided, including the cost of facilities to current residents, and compares that amount with the deferred revenue from entrance fees at that date. If the present value of the net cost of future services and use of facilities exceeds the deferred revenue from entrance fees, a liability (obligation to provide future services) is recorded. No liability has been recorded at September 30, 2020 and 2019, because the present value of the estimated net costs of future services and use of facilities is less than deferred revenue from entrance fees. The present value of the net cost of future services and use of facilities is discounted at 5.0% in 2020 and 2019, which is based upon the expected long-term rate of return on government obligations.

Income taxes

Deerfield is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code; accordingly, the accompanying consolidated financial statements do not reflect a provision or liability for federal and state income taxes. Deerfield has determined that it does not have any material unrecognized tax benefits or obligations as of September 30, 2020 and 2019.

Reclassification

Certain amounts in the 2019 consolidated financial statements have been reclassified in order to conform to the 2020 presentation, resulting in an approximate \$70,000 change to accounts payable and other accrued liabilities.

Subsequent events

Subsequent events have been evaluated through January 19, 2021, which is the date the consolidated financial statements were issued.

2. Fair Value of Financial Assets

Prices for certain investment securities which are readily available in the active markets in which those securities are traded are categorized as Level 1. Prices determined on a recurring basis based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets are categorized as Level 2. Deerfield does not have any financial assets or liabilities measured at fair values on a recurring basis categorized as Level 3.

Deerfield recognizes transfers between the levels as of the end of the reporting period. There were no transfers between the levels for the years ended September 30, 2020 and 2019.

There were no changes during the years ended September 30, 2020 and 2019 to Deerfield's valuation techniques used to measure asset fair values on a recurring basis.

The following tables set forth by level within the fair value hierarchy Deerfield's assets accounted for at fair value on a recurring basis as of September 30, 2020 and 2019. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Deerfield's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Notes to Financial Statements

Interest on bonds is payable semi-annually on May 1 and November 1. All bonds are secured by substantially all of the property and equipment of Deerfield. The trust indentures and loan agreements underlying the Series 1997, 2014 and 2016 bonds contain certain covenants and restrictions.

Annual principal maturities of bonds payable are as follows:

2021	\$ 2,910,000
2022	2,975,000

Thereafter	<u>37,070,000</u>
	<u>\$ 50,985,000</u>

5. Net Assets with Donor Restrictions

As disclosed in Note 1, contributions are accounted for based on donor-imposed restrictions. The following is a summary of net assets with donor restrictions at September 30:

	<u>2020</u>	<u>2019</u>
Resident assistance	\$ 2,510,546	\$ 2,702,235

Other	<u>897,638</u>	<u>670,232</u>
Total net assets with donor restrictions	<u>\$ 7,393,162</u>	<u>\$ 7,319,846</u>

In July 1995, Deerfield received a non-cash contribution of real property and improvements valued at \$3,204,889, consisting of the existing facilities for which legal title had been held by the Diocese of Western North Carolina of the Protestant Episcopal Church of the United States of America (the "Diocese"). This contribution was made for the express purpose of facilitating a major expansion project. The donated property will revert to the Diocese if the property ceases to be used exclusively as a retirement community.

6. Statutory Operating Reserve Requirements

North Carolina General Statute Chapter 58, Article 64, sets forth minimum operating reserve requirements. Under this legislation, Deerfield is required to maintain an operating at least equal to 25 percent of the upcoming year's total operating costs as defined by the statute. At September 30, 2020 and 2019, management has estimated that \$7,796,000 and \$6,330,122, respectively, would be required to meet the operating reserve requirement and has allocated funds included in assets limited as to use to meet this requirement.

7. Employee Benefit Plans

Deerfield employees may participate in a 403(b) Retirement Savings Plan. Deerfield will match 50% of employee's contributions up to a maximum employee contribution of 6%. Participants are fully vested in all funds within the plan after six years of participation in the plan. Deerfield expensed contributions to the plan of approximately \$181,000 and \$184,000 for the years ended September 30, 2020 and 2019, respectively.

Deerfield also has a qualified Welfare Benefit Plan providing comprehensive health care coverage. The plan includes coverage provided by the plan underwriter as well as self-funded coverage provided by Deerfield. Deerfield's self-funded liability is limited to \$65,000 and \$60,000 per person per year for the years ended September 30, 2020 and 2019 respectively. The liability for estimated unpaid claims was approximately \$145,000 and \$45,000 at September 30, 2020 and 2019, respectively, and is included in other accrued liabilities on the consolidated balance sheet.

Professional liability coverage

Deerfield has an insurance policy for possible litigation in the ordinary course of business related to professional liability claims. Management believes that claims, if asserted, would be settled within the limits of coverage, which is on a claims-made basis. Should Deerfield not renew its claims-made policy, or replace it with equivalent insurance, occurrences incurred during its term but asserted after its expiration would be uninsured, unless Deerfield obtains additional coverage.

8. Fair Value of Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable and other assets approximate fair value. Investments and assets limited as to use are reported at fair value as of the date of the consolidated financial statements. See Note 2 for more information relating to the fair value of investments and assets limited as to use.

The carrying amounts of accounts payable, accrued salaries and wages, accrued interest payable and other accrued and long-term liabilities approximate fair value. The fair value of the bonds payable is based on quoted market prices.

9. Liquidity and Availability

Deerfield monitors and maintains liquidity sufficient to meet operating and capital needs as well as contractual commitments while maximizing any return on available funds. Deerfield's financial assets available within one year of September 30, 2020 and 2019 are as follows

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents	\$ 10,305,011	\$ 14,682,810
Investments	63,549,223	56,547,793

Total financial assets available to meet cash needs for general expenditures within one year	<u>\$ 75,656,322</u>	<u>\$ 72,938,800</u>

10. Functional Expense

Deerfield provides various health-related and other services through its nursing and residential care facilities. The cost of providing various programs and supporting services has been reported on a functional basis below. Accordingly, certain costs have been allocated to program initiatives and supporting services based on estimates made by management. Such expenses include supplies and direct expenses, interest, and depreciation which are allocated based on square footage and salaries and benefits which are allocated based on estimates of time and effort.

The following is a schedule of expenses by both nature and function for the years ended September 30, 2020 and 2019:

	Functional Expenses as of September 30, 2020

11. Revenue Recognition

Deerfield generates revenues, primarily by providing housing and health services to its residents. The following streams of revenue are recognized as follows:

Monthly service fees:

The contracts that residents select require an advanced fee and monthly fees based upon the type of space they are applying for. Resident fee revenue for recurring and routine monthly services is generally billed monthly in advance. Payment terms are usually due within 30 days. The services provided encompass social, recreational, dining along with assisted living and nursing care and these performance obligations are earned each month. Under Accounting Standards Codification ("ASC") Topic 606, management has determined that the performance obligation for the standing obligation to provide the appropriate level of care is the predominate component and does not contain a lease component under ASC Topic 840. Resident fee revenue for non-routine or additional services are billed monthly in arrears and recognized when the service is provided.

Deerfield Episcopal Retirement Community, Inc.
Notes to Financial Statements

Entrance fees:

The nonrefundable entrance fees are recognized as deferred revenue upon receipt of the payment and included in liabilities in the consolidated balance sheets until the performance obligations are satisfied. The refundable portion of an entrance fee is not considered part of the transaction price and as such is recorded as a liability in the consolidated balance sheets. Additionally, management has determined the contracts do not contain a significant financing component as the advanced payment assures residents the access to health care in the future. These deferred amounts are then amortized on a straight-line basis into revenue on a monthly basis over the life of the resident as the performance obligation is the material right associated with access to future services as described in FASB ASC 606-10-55 paragraph 42 and 51.

Health care services:

Within the facility, Deerfield provides skilled nursing care to residents who are covered by government payors and also who pay privately. Deerfield is paid fixed daily rates from both payor sources. The fixed daily rates for private pay are billed in advance and the fixed daily rates for government payors are billed in arrears. The monthly fees to be received from the government represent the most likely amount to be paid out based on predetermined rates from the Centers for Medicare and Medicaid (CMS).

12. COVID-19

In March 2020, the World Health Organization declared the outbreak of COVID-19, a novel strain of Coronavirus, a pandemic. The coronavirus outbreak is disrupting supply chains and affecting production and sales across a range of industries. The extent of the impact of the outbreak on Deerfield's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on employees and vendors, and governmental, regulatory and private sector responses. The accompanying consolidated financial statements do not reflect any adjustments as a result of the increase in economic uncertainty which continues through the issuance date.

13. Provider Relief Funds

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law on March 27, 2020. One provision of the CARES Act was the establishment of the Provider Relief Fund (PRF), administered by the U.S. Department of Health and Human Services (HHS). The PRF is being distributed to healthcare providers throughout the country to support the battle against the COVID-19 outbreak. During the year ended September 30, 2020, Deerfield has received \$1,003,687 in distributions from this fund. These funds are intended to reimburse qualifying expenses and lost revenues attributable to COVID-19 and are subject to the terms, conditions, and regulatory requirements set forth by HHS. If the total distributions received by the Deerfield exceed the cumulative amount of qualifying expenses and lost revenues attributable to COVID-19 through June 30, 2021, any excess funding may be subject recoupment. The Provider Relief Funds are accounted for as voluntary nonexchange transactions and related revenues will be recognized as other operating revenue as eligibility criteria are met. Deerfield has recognized \$1,003,687 as other operating revenue as of September 30, 2020.

In addition to the terms, conditions, and published regulatory guidance, HHS has published additional guidance related to the nature and allowability of certain qualifying expenses and methods for determining lost revenues attributable to COVID-19 through the publication of Frequently Asked Questions (FAQs). These HHS Provider Relief Fund FAQs have been subject to significant amendment and revision over the course of the program. Additional guidance from HHS and the U.S. Office of Management and Budget (OMB) may be forthcoming, but the nature and extent of such additional forthcoming guidance is uncertain. Deerfield relied on the available guidance in determining the amounts of qualifying expenses and lost revenues attributed to COVID-19 and the related recognition of revenue during fiscal year 2020. Such determinations required management to make subjective interpretations of the available guidance, and to make assumptions and exercise considerable judgment. Subsequent changes or clarifications in guidance from HHS and OMB could have a material impact on management's estimates and the determination of such amounts. The Provider Relief Funds are subject to audit by HHS which may result in disallowed expenditures which may be subject to recoupment. Such amounts, if any, cannot be determined at this time.

Subsequent to year-end, HHS released additional reporting requirements for health care entities that received distributions from the PRF. Also, the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 ("CRRSAA") was signed into law on December 27, 2020. CRRSAA provided on-going assistance to healthcare providers and provided additional clarity around PRF reporting requirements. Deerfield does not believe the new guidance will result in a material change to amounts recorded in the September 30, 2020 consolidated financial statements related to the Provider Relief Funds. Deerfield will continue to monitor changes in reporting guidance or additional clarifications that may be issued by HHS, which would affect the accounting for distributions from the Provider Relief Fund.

Summary of Significant Forecast Assumptions and Accounting Policies

Introduction and Background Information

Basis of Presentation

The financial forecast (the “Forecast”) presents, to the best of the knowledge and belief of management’s (“Management”) of Deerfield Episcopal Retirement Community, Inc. (the “Organization” or “Deerfield”), the Organization’s expected consolidated financial position, results of operations and cash flows as of September 30, 2021, 2022, 2023, 2024, and 2025 and each of the years then ending (the “Forecast Period”).

During 2019, Deerfield formed a subsidiary, The Deerfield Charitable Foundation (the “Foundation”). The purpose of the Foundation is to provide assistance to the retirement community and health facilities owned or affiliated with Deerfield. Management’s financial forecast includes the activities of the subsidiary.

Accordingly, the Forecast reflects Management’s judgment as of February 26, 2021, the date of this forecast, of the expected conditions and its expected course of action.

The assumptions disclosed herein are the assumptions that Management believes are significant to the Forecast. There will usually be differences between forecasted and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

The accompanying forecasted information and the report are intended solely for the information and use of Management, the Board of Directors, and the North Carolina Department of Insurance (pursuant to the requirements of North Carolina General Statutes, Chapter 58, Article 64 and is included in the Organization’s disclosure statement filing), and is not intended to be and should not be used, by anyone other than these specified parties.

The presentation of Management’s financial forecast reflects additional expense and revenue categorizations that differ from Management’s historical financial presentation in its historical audited financial statements. The additional categories have been included at the request of the North Carolina Department of Insurance. The Organization is a “Type A” entrance fee community. In this type of community, residents enter the community under a contract that allows for discounted healthcare fees when the resident moves into assisted living or nursing. As a result, there is no relevant stand-alone measure of “profitability” for only the health center since the revenue associated with the health center units are discounted. For this reason, Management has not presented its resident revenue separately in its historical audited financial statements, which differs from the presentation in its forecast.

Introduction and Background Information (continued)

The following section titled Residence & Services Agreement is a summary of key provisions of the Residence & Services Agreement. For more detailed information regarding this agreement, please refer to Deerfield's Residence & Services Agreement which is included in Deerfield's Disclosure Statement filed with the North Carolina Department of Insurance.

Residence & Services Agreement

A resident who terminates the Residence & Services Agreement prior to establishing residency in the independent living unit, due to death or incapacity or changes in finances, is entitled to a full refund of the entrance fee deposit, less any non-standard costs specifically incurred by the Organization at the request of the prospective resident. A resident who voluntarily terminates the Residence & Services Agreement prior to establishing residency, for reasons other than death or incapacity or changes in finances, is entitled to a partial refund of the entrance fee deposit. The refund is equal to the entrance fee deposit less any non-standard costs specifically incurred by the Organization at the request of the prospective resident and a non-refundable fee equal to 4 percent of the entrance fee.

The Organization offers three types of contract options: 0% refundable (the "Standard Plan"), 50% refundable (the "50% Refund Plan"), and 90% refundable (the "90% Refund Plan"). The 50% Refund Plan and the 90% Refund Plan are subject to certain age restrictions.

Standard Plan— Under the terms of this plan, a resident who terminates the Residence & Services Agreement during the first 60 days of occupancy (the "Trial Period") is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. After the trial period, the refund is reduced by 2 percent of the amount of the entrance fee paid per month of occupancy for 48 months, plus an additional 4 percent charge. There is no refund after 48 months of occupancy.

50% Refund Plan— Under the terms of this plan, a resident who terminates the Residence & Services Agreement during the Trial Period is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. After the trial period, the refund is reduced by 2 percent of the amount of the entrance fee paid per month of occupancy for 23 months, plus an additional 4 percent charge. After 23 months, the resident receives a refund equal to 50 percent of the entrance fee paid.

90% Refund Plan— Under the terms of this plan, a resident who terminates the Residence & Services Agreement during the Trial Period is entitled to a refund of the entire entrance fee, less a 4 percent non-refundable fee. After the trial period, the refund is reduced by 1 percent of the amount of the entrance fee paid per month of occupancy for 6 months, plus an additional 4 percent charge. After 6 months, the resident receives a refund equal to 90 percent of the entrance fee paid.

The 50% Refund Plan and the 90% Refund Plan are not available to persons 85 years of age or older. The age of the older resident is used in making this determination.

Management has forecasted that the majority of independent living residents will select the Standard 0% Refundable Entrance Fee Plan, based on historical experience.

The resident is required to confirm his/her selection of a refund plan at the time of final payment of the entrance fee and is not allowed to change refund plans without written approval of Management. Payment of refunds is due within 60 days for the Standard Plan and 50% Refund Plan, whereas the payment of a refund for the 90% Refund Plan is due upon the earlier of re-occupancy of the unit by another prospective resident, or one year.

Summary of Significant Forecast Assumptions and Accounting Policies

Introduction and Background Information (continued)

If the resident is unable to live independently within the range of services provided in the independent living unit, as determined by the Organization's medical director in conjunction with the resident's physician and family or guardian, the resident is transferred to an assisted living unit or nursing bed in the Health Center. If a resident is permanently transferred to an assisted living unit or a nursing bed, the independent living unit is available for occupancy by another prospective resident. However, no refund of the entrance fee is paid to the transferring resident until death or termination of the Residence & Services Agreement, as specified in the contract. The transferring resident continues to pay the monthly service fee paid prior to transferring and also pays for two additional meals and ancillary services. If, in the future, the resident recovers sufficiently to resume independent living, a similar or alternative independent living unit is made available for the resident's use, subject to availability.

Under the Residence & Services Agreement, independent living residents must pay an entrance fee and a monthly service fee and are entitled to the following services and amenities at no additional cost:

- Utilities (except telephone and cable);
- Main meal of the day (one meal per day);
- Routine maintenance and grounds keeping;
- 24-hour emergency response service;
- 24-hour security;
- Priority access to a nursing bed or to an assisted living unit, as necessary;
- Planned social and recreational activities;
- Scheduled local transportation;
- Weekly housekeeping;
- Lighted parking;
- Exercise and wellness programs;
- Additional storage;
- Routine client services; and
- Use of grounds and common facilities.

In addition to the items included in the monthly service fee, certain services are available to residents at an additional cost. These items may include, but are not limited to:

- Additional meals beyond the chosen plan;
- Guest meals;
- Cable television;
- Guest accommodations;
- Additional housekeeping services; and
- Ancillary services in the Health Center

Health Care Services

Assisted living and nursing services are offered in the Health Center at residents' current monthly fee plus the additional cost of meals and fees not included in the monthly fee pursuant to the Residence & Services Agreement. All healthcare areas are under the direct supervision and responsibility of a licensed administrator, the Director of Health Services, and the Medical Director, a licensed physician.

Assisted living services are offered in 62 residential-style units of the Health Center. In addition to the services offered in the independent living units, residents in the assisted living units receive the following service:

Summary of Significant Forecast Assumptions and Accounting Policies

Introduction and Background Information (continued)

- Assistance with activities of daily living (bathing, dressing, eating, toileting, mobility, transfers) as needed;
- 3 meals per day with daily snacks;
- Daily resident safety checks;
- Regular health and wellness assessments;
- Medication counseling and supervision;
- Transportation service to activities;
- Reality orientation and rehabilitation therapies; and
- Recreational activities.

Nursing services are offered in 62 skilled nursing beds located in the Health Center that consists of 46 private beds with private baths and 16 semi-private beds with shared baths. Of the 62 skilled nursing beds, 31 are sheltered beds and, accordingly, are unavailable for use by direct entrants into the Health Center from outside of the Community. Only residents of the Organization can use these sheltered beds. Nursing services provided in the Health Center include:

- Licensed nursing services 24-hours per day;
- Rehabilitation nursing services;
- Physical, speech and occupational therapies;
- Post-hospital care;
- Recreational activities;
- Respite care; and
- 3 meals per day with special diets accommodated.

For residents under the Residence & Services Agreement, transfers to the Health Center are classified as either a temporary transfer or a permanent transfer. Residents under the Residence & Services Agreement who transfer to the Health Center pay the following depending on the transfer classification:

- *Temporary Transfer* - Residents continue to pay a monthly fee plus the cost of meals provided not included in the monthly fee and other costs not reimbursed by third party payers. No additional charge is paid for the care received in the Health Center, unless there is an upgrade to a larger unit.
- *Permanent Transfer* - Upon permanent transfer to the Health Center, the resident must give up his/her independent living unit. If the independent living unit is jointly occupied and one resident transfers to the Health Center, each resident continues being charged the normal monthly fee that was in effect for their independent living unit. The cost of additional meals, and any additional fees (including upgrades to larger units, if applicable) for services provided to the resident, is paid upon permanent transfer to the Health Center.

Summary of Significant Forecast Assumptions and Accounting Policies

Summary of Significant Accounting Policies

Basis of Accounting

The Organization maintains its accounting and financial records according to the accrual basis of accounting. The Organization classifies its funds for accounting and reporting purposes as without donor restriction or with donor restriction:

Net assets without donor restriction - resources of the Organization that are not restricted by donors or grantors as to use or purpose. These resources include amounts generated from operations, undesignated gifts, and the investment in property and equipment.

Net assets with donor restriction - resources that carry a donor-imposed restriction that permits the Organization to use or expend the donated assets as specified and is satisfied by the passage of time or by actions of the Organization or resources that carry a donor-imposed restriction that stipulates that donated assets be maintained in perpetuity, but may permit the Organization to use or expend part or all of the income derived from the donated assets.

Cash and Cash Equivalents

Cash and cash equivalents include certain investments in highly liquid instruments with original maturities of three months or less from the date of acquisition, which are not included in assets limited as to use or investments.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value based on quoted market prices in the forecasted balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the operating income unless the income or loss is restricted by donor or law. Management classifies investments as trading securities, and changes in cash flows for investments, as cash flows from operating activities.

Management has not forecasted any unrealized gains or losses during the Forecast Period.

Accounts Receivable, Net

Deerfield considers accounts receivable to be fully collectible; accordingly no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made. Management does not expect these amounts to be material. Generally, no finance charges are assessed on trade receivables.

Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

Summary of Significant Forecast Assumptions and Accounting Policies

Summary of Significant Accounting Policies (continued)

Assets Limited as to Use

Assets limited as to use that are required to meet current liabilities of the Organization have been classified in the balance sheets for the prospective reporting period as current.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation. Contributed property is recorded at its estimated fair value at the date of receipt. Depreciation is computed on a straight-line basis for all depreciable assets over estimated useful lives.

The Organization periodically assesses the realizability of its long-lived assets and evaluates such assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. For assets to be held, impairment is determined to exist if estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. For assets to be disposed of, impairment is determined to exist if the estimated net realizable value is less than the carrying amount. The Organization has determined that there are no indicators of impairment during the prospective reporting period.

Concentration of Risk

The Organization's operating funds, comprised of cash and cash equivalents, are located in a certain financial institution. At various times throughout the year, the Organization anticipates having deposits at the bank in excess of the amounts covered by federal depository insurance. Management believes the financial institution has a strong credit rating and the credit risk related to these deposits is minimal.

Entrance Fee Deposits

Admission deposits consist of reservation deposits and admission deposits. The Organization collects a reservation deposit of \$1,000 to save a space on the future occupancy list for a residential unit. An admission deposit of 10 percent of the entrance fee, less the reservation deposit, is received when a unit is available and a Residence & Services Agreement is executed. When the 10 percent admission deposit is received, a residential unit is considered reserved. The reservation agreement may be terminated by the prospective resident prior to taking occupancy by giving written notice to the Organization. In the event of withdrawal from the future occupancy list or a termination of the reservation, the resident receives a refund for a portion of the deposit paid by the resident, without interest.

Deferred Financing Costs

Deferred financing costs and discounts are amortized using the straight line method over the term of the related financing.

Debt issuance costs are presented in the forecasted balance sheets as a deduction from the carrying amount of the related liability. In addition, amortization expense associated with the debt issuance costs is shown as a component of interest expense.

Parking Fees

Deferred parking revenue is amortized into other income using the straight-line method over the estimated remaining life expectancy of the resident, adjusted on an annual basis. Refundable parking fees represent the portion of the payment of parking fees that will be refunded to the resident when parking is no longer required.

Summary of Significant Forecast Assumptions and Accounting Policies

Summary of Significant Accounting Policies (continued)

Deferred Revenue and Refundable Entrance Fees

Fees paid by a resident upon entering into a Residence & Services Agreement, net of the estimated portion that is refundable to the resident, are recorded as deferred revenue and amortized into income using the straight-line method over the estimated remaining life expectancy of the resident, adjusted on an annual basis. When the Residence & Services Agreement is terminated, the amount of unamortized portion of the deferred revenue from non-refundable entrance fees is recognized as revenue. The refundable portion is not amortized and is presented separately as refundable entrance fees.

Statements of Revenue, Expenses, and Other Changes in Net Assets

Provision of resident care services is the primary function of the Organization. For purposes of display, transactions deemed by Management to be ongoing, major, or central to the provision of resident care services are reported as revenues, gains and other support and expenses. Peripheral or incidental transactions are reported as non-operating gains and losses. The Organization considers operating income to be its performance indicator.

Independent Living Monthly Fees and Healthcare Revenue

Independent living monthly fees and healthcare revenue represent the estimated net realizable amounts from patients, third-party payers, and others for services rendered. Independent living monthly fees and healthcare revenue are recorded as revenue when earned.

Contributions and Bequests

The Organization reports contributions of cash and other assets as temporarily restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the forecasted statements of revenue, expenses, and other changes in net assets as assets released from restrictions. The Organization reports contributions of property and equipment as additions to unrestricted net assets unless explicit donor stipulations specify how the donated assets must be used. Contributions of long-lived assets with explicit restrictions that specify how the assets are to be used and contributions of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support. Absent explicit donor stipulations about how long these assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Obligation to Provide Future Services

The Organization enters into continuing-care contracts with various residents. A continuing-care contract is an agreement between a resident and the Organization specifying the services and facilities to be provided to a resident over his or her remaining life. Under the contracts, the Organization has the ability to increase fees as deemed necessary. At the end of each year, the Organization calculates the present value of the estimated net cost of future services to be provided, including the cost of facilities to current residents, and compares that amount with the deferred revenue from entrance fees at that date. If the present value of the net cost of future services and use of facilities exceeds the deferred revenue from entrance fees, a liability (obligation to provide future services) is recorded. No liability has been recorded for the prospective reporting period because the present value of the estimated net costs of future services and use of facilities is less than anticipated deferred revenue from entrance fees.

Summary of Significant Forecast Assumptions and Accounting Policies

Summary of Significant Accounting Policies (continued)

Social Accountability

Deerfield is estimating that 5 percent of resident revenues would be spent on "social accountability." Although this accountability can take many forms, Deerfield's Management believes the Organization currently provides this level of social accountability.

Income Taxes

The Organization has been recognized by the Internal Revenue Service as a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (IRC) and is exempt from federal and state income taxes pursuant to Section 501(a) of the IRC.

Summary of Significant Forecast Assumptions and Accounting Policies

Management's Basis for Forecast of Revenue

Revenues for Deerfield are primarily generated from monthly service fees for the independent living units, amortization of entrance fees and monthly service fees and per diem charges from the Health Center residents.

Revenues for the independent living units are based on the monthly service fees assumed by Management to be charged to the residents and the assumed utilization of the independent living units. Health care revenues consist of revenue generated from services provided to residents transferring from the independent living units or from residents directly admitted from outside the Facility into assisted living and nursing units. All assisted living residents are private pay and the majority of nursing residents are private pay, but the Organization is certified to accept Medicare residents.

For residents under the Residence & Services Agreement, transfers to the Health Center are classified as either a temporary transfer or a permanent transfer. Residents under the Residence & Services Agreement who transfer to the Health Center pay the following depending on the transfer classification:

- *Temporary Transfer* - Residents continue to pay the normal monthly fee that was in effect for their independent living unit, plus the cost of additional meals, and any other additional fees (including upgrades to larger units, if applicable) for services provided to the resident, that are not included in the monthly fee.
- *Permanent Transfer* - Upon permanent transfer to the Health Center, the resident must give up his/her independent living unit. If the independent living unit is jointly occupied and one resident transfers to the Health Center, each resident continues being charged the normal monthly fee that was in effect for their independent living unit. The cost of additional meals, and any additional fees (including upgrades to larger units, if applicable) for services provided to the resident, is paid upon permanent transfer to the Health Center.

Forecasted Entrance and Monthly Service Fees

Table 1 presents Management's forecasted rates for the Organization for the year ending September 30, 2021. Statutory Operating Reserve - Section 58-64-33 of the General Statutes of North Carolina, as amended, establishes an operating reserve requirement that must be satisfied on an annual basis. Specifically, in years where the overall occupancy of the facility exceeds 90%, the operating reserve amount required equals 25% of operating expenses. In years where overall occupancy is under 90%, a reserve equal to 50% of operating expenses must be established. To the extent that funds have been set aside for the payment of interest and principal on debt (Debt Service Reserve Fund), interest expense and principal payments would be excluded from the statutory operating reserve requirements.

Replacement and Renewal Fund – The Organization has set aside, by the direction of the Board of Directors, funds to be used for the renewal and replacement of property and equipment. The Board of Directors retains control over these assets and may at its discretion subsequently use them for other purposes.

Under Bond Indenture Agreement (Held by Trustee Pursuant to Financing Agreements) – The Organization is required to maintain certain funds for the existing bonds.

Held by the Foundation

Benevolent Assistance Fund – The Organization has a policy of providing benevolent assistance to residents who are unable to pay. Such residents are identified based on financial information obtained from the resident and subsequent review and analysis. Since the Organization does not expect to collect the normal charges for services provided, estimated charges for benevolent assistance are not included in revenue. Funds donated by outside parties to assist these needy residents are placed by Management into a separate Benevolent Assistance Fund. Such amounts are designated by the Board of Directors and utilized to offset the cost of providing financial assistance to residents who are unable to meet their financial commitments.

Mission Advancement Fund – The Organization has set aside, by direction of the Board of Directors, funds to be used to meet the mission of the Organization. The Board of Directors retains control over these assets and may at its discretion subsequently use them for other purposes.

Amounts Restricted by Donors - The Organization receives certain contributions from outside parties that are intended to be used for specific purposes, primarily for future improvements to be made to the chapel and future residency assistance. Contributions of such assets with explicit restrictions that specify how the assets are to be used are reported by Management as restricted support. Specifically, externally restricted resources are accumulated in a separate fund until the restrictions end and the funds are released.

II. FINANCIAL ARRANGEMENTS

A. Entrance Fee Options. The Resident agrees to pay to Deerfield an Entrance Fee as a condition of becoming a Resident. The Resident shall choose one of the following options, amounts, and amortization schedules as to the Entrance Fee to be paid:

<u>Entrance Fee Option</u>	<u>Amount of Entrance Fee</u>	<u>Amortization Schedule</u>
1. Standard	\$ _____	2% per month for 48 months less a 4% non-refundable fee.
2. 50% Refund	\$ _____	2% per month for 23 months less a 4% non-refundable fee. Refund never less than 50%.
3. 90% Refund	\$ _____	1% per month for 6 months less a 4% non-refundable fee. Refund never less than 90%.

The amounts shown prior for the 50% Refund Entrance Fee Option and the 90% Refund Entrance Fee Option are based on premiums in addition to the Standard Entrance Fee Option based on industry calculations by a financial consultant. The 50% Refund Entrance Fee Option and the 90% Refund Entrance Fee Option are not available to persons 85 or older. The age of the older Resident is used in making this determination.

The Resident must notify Deerfield in writing of the selection of the 50% Refund or 90% Refund Entrance Fee Options on or before the date that the balance of the Entrance Fee is due as provided in Paragraph II.B.3 below. Without written approval of Deerfield, the Resident may not change the option selected after the date the balance of the Entrance Fee is due. The selection of either the 50% or 90% Refund Option may subject the Resident to the payment of imputed interest. Deerfield advises that the Resident consult a financial advisor with respect to that possibility.

B. Terms of Payment of the Entrance Fee. The terms of payment of the Entrance Fee shall be as follows:

- Reservation Deposit/Future Residency Deposit. An initial Future Residency Deposit or Reservation Deposit of One Thousand Dollars (\$1,000.00) has been paid upon execution of the Future Residency Agreement or Reservation Agreement; and
- Ten Percent (10%) Deposit. An amount equal to Ten Percent (10%) of the total Standard Entrance Fee, less the One Thousand Dollar (\$1,000.00) Future Residency Deposit or Reservation Deposit, or \$ _____ is due and payable within Ten (10) Days after the Resident has accepted the offer of the Residence from Deerfield Episcopal Retirement Community and upon execution of this Agreement; and,
- Balance of the Entrance Fee. The balance of the total Entrance Fee for the Entrance Fee Option selected by the Resident is due and payable prior to occupancy and within Sixty (60) Days of when the Residence is declared by

Deerfield to be available for occupancy or within Sixty (60) Days of the execution of this Agreement, whichever occurs last, unless otherwise agreed to in writing by Deerfield.

- C. Monthly Fee.** In addition to the Entrance Fee, Resident agrees to pay a Monthly Fee during the term of this Agreement which shall be payable in advance by the 10th of each month. The Monthly Fee associated with the Residence is \$_____ per month, and an additional \$_____ per month if a second Resident occupies the Residence. The Monthly Fee may be adjusted by Deerfield during the term of this Agreement as described in Paragraph II.D below. The first Month's Fee is payable in full in advance and prior to occupancy, and the following Monthly Statement will credit the Resident for any days of the month prior to occupancy.
- D. Adjustments in the Monthly Fee.** The Monthly Fee is made to provide the facilities, programs, and services described in this Agreement and is intended to meet the cost of the expenses associated with the operation and management of the Community. Deerfield has the authority to adjust the Monthly Fee from time to time during the term of this Agreement as Deerfield in its discretion deems necessary in order to reflect changes in costs of providing the facilities, programs, and services described herein consistent with operating on a sound financial basis and maintaining the quality of services called for herein. In the event that it should be determined that Deerfield is required to pay sales tax or ad valorem taxes upon its property, the Monthly Fee may be adjusted to reflect the amount of such taxes. Any such increases in the Monthly Fee or other charges may be made by Deerfield upon Thirty (30) Days written notice to the Resident.
- E. Monthly Statements.** Deerfield furnishes the Resident with monthly statements showing the total amount of fees and other charges owed by the Resident which shall be payable by the 10th day of the month. Deerfield may charge interest at a rate of One and One-Half Percent (1½%) per month on any unpaid balance owed by the resident Thirty (30) Days after the monthly statement is furnished.
- F. Nursing and Health Services Fees and Charges.**
- 1. Continuance of Monthly Fee.** Should Resident qualify for health care services either in skilled nursing care or assisted living care, it is understood that Resident will continue to be charged the amount equal to the Monthly Fee in the Residence occupied by the Resident at the time of the transfer. In addition to the Monthly Fee, charges will be made for Two (2) additional meals per day and other charges for ancillary services as more fully described in Paragraph II.F.3 below.
 - 2. Participation in Medicare Program.** In the event that Deerfield elects to participate in the Part A Medicare Program, the Resident hereby agrees to give assignment to Deerfield of those designated nursing home benefits under Part A and the associated benefits of the Resident's Medicare Supplement Policy. This does not alter the Resident's benefits or obligations as outlined in Paragraph II.F.1 of this Agreement.
 - 3. Additional Charges for Ancillary Services.** Additional charges for Nursing and Health Care Services may be made by Deerfield for ancillary services provided at the Community. Ancillary services will include all services not provided by the staff of the Community and are therefore not included in the Monthly Fee. Examples of such additional charges may include, but are not limited to, the cost of prescription and non-prescription medications, surgical, dental and optical services, physical

examinations, laboratory tests, physical therapy, occupational therapy, rehabilitative treatments, wheelchairs, other medical equipment and supplies, and any other medical services and supplies beyond that available in the Community. Also, any professional services (medical or otherwise) contracted by Resident or in behalf of Resident shall be billed directly to Resident.

4. Additional Charges for Residence Upgrade. Should the Resident choose to upgrade the accommodations in Assisted Living or Skilled Nursing from the standard Residence, there will be an additional charge for the upgraded Residence. This charge will reflect the difference between the direct admission monthly service fee for the standard accommodation and the direct admission monthly service fee for the upgraded accommodation. In either case, the monthly fee will continue as described in Paragraph II.F.1; the additional fees for upgrade will be reflected in the monthly bill.
5. Care in Another Facility. Should Resident need a level of care beyond that licensed at the Community and require transfer to another facility, all expenses which will result from such transfer and care shall be borne entirely by Resident.

III. ADMISSION REQUIREMENTS AND PROCEDURES

A prospective resident will become qualified for admission to the Community upon satisfaction of the following provisions:

- A. **Age.** The admission requirements for residence at the Community are non-discriminatory except as to age, and the Community is open to both married and single men and women of all races and religions and without regard to place of former residence. Admission is restricted to persons 62 years of age or older.
- B. **Personal Interview.** The Resident shall have an interview with a representative from Deerfield prior to taking residency. Upon review of all information required herein, additional personal interviews may be requested by Deerfield.
- C. **Application Forms.** Within Thirty (30) Days after the execution of the Reservation Agreement or Future Residency Agreement, the Resident shall have submitted for approval by the Admissions Committee appointed by Deerfield, an Application for Admission, a Personal Health History, and a Confidential Financial Statement, all on forms furnished by Deerfield.
- D. **Admissions Committee Review.** Upon receipt of the completed application forms, Deerfield's Admissions Committee will have reviewed the forms submitted by Resident as a basis for initial admission to the Community. The Admissions Committee, in its sole discretion, will have approved or denied the application for initial admission based on admissions criteria and policies established by the Board of Directors of Deerfield. The Resident shall have been notified of such action of the Admissions Committee.
- E. **Notification.** The Resident will be notified of availability of the Residence based on the Resident's wait list number, type of Residence specified by the Resident, and projected date of entry. Deerfield will notify the Resident as early as possible of the date on which the Residence will be ready for occupancy.
- F. **Health Requirements.** At least Thirty (30) Days prior to admission for residency at the Community, the Resident shall submit a report of a physical examination of the

Resident made by a physician selected by the Resident within approximately six months of the projected occupancy date. Such report shall include a statement by such physician that the Resident is in good health, is ambulatory or can move about independently and is able to take care of himself or herself in normal living activities. Deerfield may require the Resident to have another physical examination by the Medical Director or by another physician approved by Deerfield. The Resident shall be responsible for the costs of such physical examinations. If the health of the Resident as disclosed by such physical examination differs materially from that disclosed in the Resident's Application for Admission and Personal Health History, Deerfield shall have the right to decline admission of the Resident and to terminate this Agreement, or in the discretion of Deerfield, to permit the Resident to take occupancy of accommodations within the Community more suitable to the needs of the Resident.

- G. **Financial Requirements.** The Resident must have assets and income which will be sufficient under foreseeable circumstances to pay the financial obligation of the Resident under this Agreement and to meet ordinary living expenses of the Resident. Deerfield may require the Resident to furnish additional, current financial information as may be needed.
- H. **Representations.** The Resident affirms that the representations made in the Application for Admission, Personal Health History, and Confidential Financial Statement are true and correct and may be relied upon by Deerfield as a basis for entering into this Agreement.

IV. **TERMS OF RESIDENCY**

- A. **Rights of Resident.** The Resident has the right to occupy, use, and enjoy the Residence, common areas, amenities, programs, and services of the Community during the Residents' lifetime unless this Agreement shall be terminated as provided herein. It is understood that this Agreement does not transfer or grant any interest in the real or personal property owned by Deerfield other than the rights and privileges as described in this Agreement.
- B. **Policies and Procedures.** The Resident agrees to abide by the Community's policies and procedures and such amendments, modifications, and changes of the policies and procedures as may hereafter be adopted by Deerfield and the Community.
- C. **Changes in the Residence.** Deerfield has the right to change the Residence to meet requirements of any applicable statutes, law, or regulation. The Residence may not be used in any matter in violation of any zoning ordinances or other governmental law or regulation.
- D. **Visitors.** Except for short term visitors or guests, no person other than the Resident may reside in the Residence without the approval of Deerfield.
- E. **Loss of Property.** Deerfield shall not be responsible for the loss of any property belonging to the Resident due to theft, mysterious disappearance, fire or any other cause. It is understood that the Resident will have the responsibility of providing any desired insurance protection covering any such loss.
- F. **Illness or Accident Away from Deerfield.** If Resident suffers an accident or illness away from the community, Deerfield will have no responsibility to pay for Resident's

medical, surgical, hospital or nursing care obtained offsite; however, after Resident returns, Deerfield shall assume its responsibility to provide services as specified in this Agreement that are deemed necessary by Deerfield.

- G. Medical Insurance.** Throughout the duration of this Agreement, the Resident shall maintain, at Resident's expense, Medicare Part A, Medicare Part B, and one supplemental health insurance policy or equivalent insurance coverage acceptable to Deerfield, and shall furnish Deerfield with evidence of such coverage upon request.
- H. Accident or Illness Caused by Others.** In the event Resident is physically injured by an individual or entity not a part of this Agreement, Resident grants to Deerfield a right of subrogation and authorizes Deerfield to bring such demands, claims or legal proceedings in the name of or on behalf of Resident for purposes of recovering from any third party or third party's insurer responsible for Resident's injury, the dollar value of all care provided by Deerfield to Resident as a result of such injury. Resident agrees to cooperate and sign any documents necessary to facilitate Deerfield's ability to exercise its subrogation right. After the costs and expenses incurred by Deerfield in the care of Resident (including legal fees and cost of care furnished to Resident by Deerfield because of such injury) have been reimbursed to Deerfield through subrogation, the balance of any recovery will be refunded to Resident or Resident's estate.
- I. Marriage or Addition of Second Resident During Occupancy.**
- 1. Resident to Resident Marriage.** If a Resident marries a person who is also a Resident, the two Residents may occupy either Residence and shall surrender the other. No refund will be payable with respect to the Residence surrendered except in the case of a Resident who has elected the 50% or 90% Refund Entrance Fee Option or in the case of a Resident who has occupied the Residence less than 48 months. Such married Residents will pay the Monthly Fee for double occupancy associated with the Residence occupied by them.
 - 2. Resident to Non-Resident Marriage.** In the event that a Resident shall marry a person who is not a Resident of the Community, the spouse may become a Resident if such spouse meets all the then current requirements for admission to the Community, enters into a then current version of the Residence and Services Agreement with Deerfield and pays an Entrance Fee in an amount determined by Deerfield in its discretion but in any event no more than one-half of the then current Entrance Fee associated with the type of Residence to be occupied by the Resident and spouse. The Resident and spouse shall pay the Monthly Fee for double occupancy associated with the Residence occupied by them. If the Resident's spouse shall not meet the requirements of Deerfield for admission as a Resident, the Resident may terminate this Agreement in the same manner as provided in Paragraph VI.C hereof with respect to a voluntary termination.
- J. Right of Entry.** Resident hereby authorizes employees or agents of the Community to enter the Residence for the purposes of housekeeping, repairs, maintenance, inspection, and in the event of an emergency.
- K. Residents' Organizations.** Deerfield has a Residents' Association and Residents' Committees, organized by Deerfield Residents, that is open to all Residents. Such organizations elect representatives, officers, and other positions to engage in concerted activities set forth by the Residents' Association.

V. TRANSFERS OR CHANGES IN LEVELS OF CARE

A. Transfer from One Residence to a Smaller Residence

In the event that the Resident occupying a Residence under the terms of this Agreement moves to a smaller Residence, the Resident shall be entitled to a refund of the difference, if any, between the following:

- (a) the Entrance Fee paid on the larger Residence less the appropriate amortization according to the Entrance Fee Option selected by the Resident in Paragraph II.A of this Agreement for each month (or portion thereof) from the occupancy date through the date on which the Resident transfers to the smaller Residence; and
- (b) the Entrance Fee for the smaller Residence in effect on the date of transfer less the appropriate amortization according to the Entrance Fee Option selected by the Resident in Paragraph II.A of this Agreement for each month (or portion thereof) from the occupancy date through the date on which the Resident transfers to the smaller Residence.

B. Transfer to Assisted Living or Skilled Nursing Care. The Resident agrees that Deerfield shall have authority to determine that the Resident should be transferred from the Residence to Assisted Living or Skilled Nursing Care, or from one level of care to another level of care within the Community. Such determination shall be based on the professional opinion of the Director of Nursing, the Executive Director or Administrator, and the Medical Director of the Community, and shall be made only after consultation to the extent practical with the Resident, a representative of the Resident's family, and the Resident's attending physician.

C. Transfer to Hospital or Other Facility. If it is determined by Deerfield that the Resident needs care beyond that which can be provided by the Community, the Resident may be transferred to a hospital, center, or institution equipped to give such care, which care will be at the expense of the Resident. Such transfer of the Resident will be made only after consultation to the extent possible with the Resident, or a representative of the Resident's family, and the Resident's attending physician.

D. Surrender of Residence. If a determination is made by Deerfield that any transfer described in Paragraph V.B or V.C. is probably not temporary in nature, the Resident agrees to surrender the Residence or any other accommodation in the Community occupied by the Resident prior to such transfer. If Deerfield subsequently determines that the Resident can resume occupancy in Residence or accommodations comparable to those occupied by the Resident prior to such transfer, the Resident shall have priority to such accommodations as soon as they become available.

VI. TERMINATION AND REFUND PROVISIONS

A. Termination by Resident Prior to Occupancy. This Agreement may be automatically terminated by the Resident for any reason prior to occupancy by giving written notice to Deerfield. In the event of such termination, the Resident shall receive a refund of the Entrance Fee paid by the Resident, less a non-refundable fee equal to 4% of the total amount of the Standard Entrance Fee described in Paragraph II.A.1. No non-refundable fee will be charged, however, if such termination is because of

death of a Resident, or because the Resident's physical, mental or financial condition makes the Resident ineligible for admission to the Community. Any such refund shall be paid by Deerfield within Sixty (60) Days following receipt of written notification of such termination.

- B. Trial Period.** The first Sixty (60) Days of occupancy at the Community will be considered to be a Trial Period. During such Sixty (60) Day Trial Period, the Resident will have the right to terminate this Agreement by giving Deerfield written notice of such termination. In the event of such termination by the Resident, or in the event of the death of the Resident during such Sixty (60) Day Trial Period, the Resident (or the Resident's estate) shall receive a full refund of the Entrance Fee paid, less a non-refundable fee equal to 4% of the total amount of the Entrance Fee as described in Paragraph II A. Also, during such Sixty (60) Day Trial Period, Deerfield shall have the right to terminate this Agreement based on Deerfield's determination that the Resident's physical or mental condition or emotional adjustment will not permit adaptation to the living environment at the Community. In the event of such termination by Deerfield, Deerfield will refund the full Entrance Fee paid by the Resident. Any refund due the Resident under this Paragraph shall be paid within Sixty (60) Days after the Residence has been vacated by the Resident.
- C. Voluntary Termination After Occupancy.** At any time after occupancy, the Resident may terminate this Agreement by giving Deerfield written notice of such termination. If the Resident has elected the Standard Entrance Fee option, the Resident shall receive a refund in an amount equal to the Standard Entrance Fee Option less 2% for each month of residency for up to 48 months and less a 4% non-refundable fee. If the Resident has elected the 50% Refund Entrance Fee Option, the Resident shall receive a refund in an amount equal to the 50% Refund Entrance Fee Option less 2% for each month of residency for up to 23 months and less a 4% non-refundable fee, and never less than 50% of the Entrance Fee paid. If Resident has elected the 90% Refund Entrance Fee Option, the Resident shall receive a refund in the amount equal to the 90% Refund Entrance Fee Option less 1% for each month of residency for up to 6 months and less a 4% non-refundable fee, and never less than 90% of the Entrance Fee paid. Unless the Resident has elected the 50% Refund Entrance Fee Option or the 90% Refund Entrance Fee Option, no refund of the Entrance Fee shall be paid to the Resident after 48 months of occupancy. The refund due the Resident under this Paragraph for the Standard and 50% Refund option will be made within Sixty (60) Days after the Residence has been vacated by the Resident. Any refund due the Resident under this Paragraph for the 90% Refund Entrance Fee Option will be made at such time as such Residence shall have been reserved by a prospective resident, and the prospective resident shall have paid to Deerfield such prospective resident's full Entrance Fee, or within one year from the date of termination, whichever occurs first.
- D. Termination by One of a Couple After Occupancy.** Upon the permanent transfer to the Health Center or the death of one of such Residents, or in the event of the termination of this Agreement with respect to one of such Residents, the Agreement shall continue in effect as to the remaining or surviving Resident, who shall have the option to retain the same Residence, in which event there will be no addition to or refund of the Entrance Fee, or to move to a smaller Residence, in which event there may be a refund of the Entrance Fee (see Paragraph V.A.). The remaining or surviving Resident will thereafter pay the Monthly Fee associated with the occupied Residence.

- E. **Termination Upon Death.** In the event of death of the Resident at any time after occupancy, this Agreement shall terminate and the refund of the Entrance Fee paid by the Resident shall be determined in the same manner described in Paragraph VI.C above.
- F. **Termination by Deerfield.** Deerfield may terminate this Agreement at any time if there has been a material misrepresentation or omission made by the Resident in the Resident's Application for Admission, Personal Health History, or Confidential Financial Statement; if the Resident fails to make payment to Deerfield of any fees or charges due Deerfield within Sixty (60) Days of the date when due; or if the Resident does not abide by the policies, rules and regulations adopted by the Community and Deerfield or breaches any of the terms and conditions of this Agreement. In the event of termination of any of such causes, the refund of the Entrance Fee paid by the Resident shall be determined in the same manner described in Paragraph VI.C above.
- G. **Condition of Residence.** At the effective date of termination of this Agreement, the Resident agrees to vacate the Residence and shall leave it in good condition except for normal wear and tear. The Resident or Resident's representative agrees to remove personal belongings from the Residence within Thirty (30) Days after vacating the Residence, unless otherwise agreed to in writing by Deerfield. After Thirty (30) Days from vacating the Residence, Deerfield has the right to remove Resident's belongings and charge Resident for removal and storage. The Resident shall be liable to Deerfield for any cost incurred in restoring the Residence to good condition except for normal wear and tear.

VII. RIGHT OF RESCISSION

Notwithstanding anything herein to the contrary, this Agreement may be rescinded by the Resident giving written notice of such rescission to Deerfield within Thirty (30) Days following the later of the execution of this Agreement or the receipt of a disclosure statement that meets the requirements of Section 58-64-1, et. seq. of the North Carolina General Statutes.

In the event of such rescission, the Resident shall receive a full refund of the Entrance Fee paid by the Resident. The Resident shall not be required to move into the Community before the expiration of such Thirty (30) Day period. Any such refund shall be paid by Deerfield within Sixty (60) Days following receipt of written notice of rescission pursuant to this Paragraph.

VIII. FINANCIAL ASSISTANCE

- A. **Residency Continuance and Assistance Fund.** Deerfield declares that it is the policy and intent of Deerfield to permit a Resident to continue to reside in the Residence or other accommodations within the Community if the Resident is no longer capable of paying the prevailing fees and charges of Deerfield as a result of financial reverses occurring after occupancy, provided such reverses, in Deerfield's judgment, are not the result of willful or unreasonable dissipation of the Resident's finances. In the event of such circumstances, Deerfield will give careful consideration to subsidizing the fees and charges payable by the Resident so long as such subsidy can be made without impairing the ability of Deerfield to attain its objectives while operating on a sound financial basis. Any determination by Deerfield with regard to the granting of financial assistance shall be within the sole discretion of Deerfield.

- B. **The Residency Fund.** Deerfield has established The Residency Fund, the income of which is used to assist Residents who would otherwise not be able to live at the Community. The income from such Fund may be used for the purpose of providing financial assistance in accordance with the provisions of Paragraph VIII.A above.
- C. **Other Charitable Contributions or Financial Assistance.** In addition to Paragraphs VIII.A and VIII.B above, in fulfillment of its charitable purpose and mission, Deerfield in its sole discretion through whichever means and methods Deerfield solely determines are fiscally appropriate and reasonable may make decisions from time to time to provide additional financial assistance to prospective or current Residents and/or to participate financially in identified community outreach opportunities that further Deerfield's charitable mission. Any determination by Deerfield with regard to the granting or denying financial assistance or granting or denying charitable contributions, for community outreach or otherwise, shall be within the sole discretion of Deerfield.

IX. **GENERAL**

- A. **Assignment.** The rights and privileges of the Resident under this Agreement to the Residence, common areas and amenities, and services and programs of the Community are personal to the Resident and may not be transferred or assigned by the Resident or otherwise.
- B. **Management of the Community.** The absolute rights of management are reserved by Deerfield, its Board of Directors, and its administrators as delegated by said Board of Directors. Deerfield reserves the right to accept or reject any person for residency. Residents do not have the right to determine admission or terms of admission of any other Resident.
- C. **Entire Agreement.** This Agreement constitutes the entire contract between Deerfield and the Resident. Deerfield shall not be liable or bound in any manner by any statements, representations, or promises made by any person representing or assuming to represent the Community, unless such statements, representations, or promises are set forth in this Agreement.
- D. **Successors and Assigns.** Except as set forth herein, this Agreement shall bind and inure to the benefit of the successors and assigns of Deerfield and the heirs, executors, administrators, and assigns of the Resident.
- E. **Power of Attorney, Will, Living Will, and Health Care Power of Attorney.** Resident agrees to execute a general power of attorney designating some competent person as attorney-in-fact. Resident agrees to execute a will. Resident is further encouraged to consider execution of a Living Will and Health Care Power of Attorney. The Resident agrees to provide Deerfield with copies of Power of Attorney, Living Will, and Health Care Power of Attorney as well as the location of the Will upon execution.
- F. **Transfer of Property.** The Resident agrees not to make any gift or other transfer of property for less than adequate consideration for the purpose of evading the Resident's obligations under this Agreement or if such gift or transfer would render such Resident unable to meet such obligations.

- G. **Religious Affiliation.** Deerfield is affiliated with the Episcopal Diocese of Western North Carolina; however, such Diocese has no responsibility for any of the obligations of Deerfield under this Agreement.
- H. **Governing Law.** This Agreement shall be governed by the laws of the State of North Carolina.
