Approval for residency in an independent living unit is conditioned upon review of such information by Pennybyrn at Maryfield.

C. Financial Criteria

Applicants are required to provide a detailed **Confidential Financial Statement**, as well as a completed **Confidential Data Profile**. Using the information provided by the applicant, Pennybyrn at Maryfield will compare the applicant's income and assets against projected expenses over the applicant's life expectancy. The results of this comparison are used to determine the applicant's ability to meet future costs and to identify financial risk, if any, to Pennybyrn at Maryfield.

D. Insurance Criteria

To ensure the Resident's ability to fully cover a Medicare-qualified stay in the Health Center, residents are required to maintain Medicare Part A, and Part B, and one supplemental health insurance policy or equivalent insurance coverage acceptable to Pennybyrn at Maryfield. Resident to furnish evidence of such insurance. If, after an approval for residency, but prior to occupancy of a Residence, a prospective Resident develops a medical condition that would normally disqualify the prospective Resident from residency to the Community, Pennybyrn at Maryfield will honor the approval for residency, provided the Resident meets all other admission criteria. Pennybyrn at Maryfield will provide the Resident with the Limited Health Care Benefit described in **Section III.C.2.** above and may, if appropriate, choose to move to a higher-level care such as assisted living or Health Care Center.

F. Termination by Resident

Any refund of Entrance Fee balances, which may be due to the Resident, shall be calculated and payable in accordance with **Section V.A.** below, and as more fully described in the attached Agreement.

4. **Termination Upon Death or Illness Prior to Occupancy.** If a Resident dies following the 30-day rescission period but prior to occupying a living unit (Residence) in the Community, or if, on account of illness, injury or incapacity, a Resident would be precluded from occupying a living unit (“Residence”) in the Community under the terms of the Agreement, the Agreement is automatically cancelled and the Resident or legal representative of the Resident shall receive a refund of all money or property transferred to Pennybyrn at Maryfield, as described in the second paragraph of **Section IV.F.2.**

H. Transfers or Changes in Levels of Care

1. **Transfer to a Health Care Residence.** Pennybyrn at Maryfield recognizes the right of self-determination of the Resident and will attempt to involve the Resident or the Resident’s representative in all decisions related to transfers and changes in level of care. In cases of potential harm to the Resident or others, to assure the health and wellbeing of the Resident and others, or to provide for the highest quality of life possible, Management reserves the right to determine if Resident should be transferred from Residence to a Health Care Residence, or from one level of care to another within Pennybyrn at Maryfield. Such determination shall be based on the opinion of the Pennybyrn at Maryfield administration and/or the Pennybyrn at Maryfield Medical Director and shall be made after consultation with the Resident and the Resident’s representative and attending physician. Such decisions shall be made only in the best interest of resident and the larger Community as determined by Pennybyrn at Maryfield.

2. **Temporary Health Care.** If the Resident is in need of temporary care in a Health Care Residence, it will be provided after consultation between the Pennybyrn at Maryfield Medical Director, the Resident’s physician, the Resident, and Resident’s spouse (if any) or the Resident’s immediate family.

Pennybyrn at Maryfield shall provide nursing care accommodation in the Health Center or assisted living care in the Assisted Living Facility, as deemed appropriate and only if space is available. The cost of such care would be in addition to the Resident's Monthly Service Fee, including the cost of any additional meals not already included in Resident's Monthly Service Fee, and any other charges described in **Section III.B.** herein.

3. **Transfer to Another Facility.** In the event that the Health Care Residences of Pennybyrn at Maryfield does not have available appropriate accommodations or other services, the Resident may, at their discretion and expense, and after consultation with Resident's physician, spouse (if any) and family, be moved to another facility. Such transfer will be made only after consultation with Resident and/or their representative, and attending physician.

4. **Surrender of Residence.** If a determination is made by Management that any transfer described above is permanent, Resident agrees to surrender their present Residence. As soon as appropriate accommodations are available, Resident will have priority to move to such Health Care Residences, or another facility determined to best suit their needs.

5. It is understood that, in a single residency situation, once permanently moved into a Health Care Residence, the Resident relinquishes the right to reoccupy that Residence. In the event that the Resident again becomes able to live independently, Resident will be entitled to the first available Residence of the type accommodation last occupied by them.

I. Refunds

All Entrance Fee refunds due after the 30-day rescission period will be paid within sixty (60) days of termination of the Agreement and upon the receipt of a replacement Entrance Fee for the vacated Residence. Any Entrance Fee refunds due will be decreased by the amount of amortization incurred per the schedules listed in **Section V.A.** below, any non-standard costs incurred by the Resident's request. In the case of dual occupancy, refunds will not be paid until both Residents have permanently vacated the Residence and removed their personal belongings.

Should a Resident move to a Health Care Residence on a permanent basis and the Resident selects a refundable entrance fee plan, the refundable portion of the Resident's Entrance Fee due to the Resident as a refund, may be applied to the cost of that care, provided that management agrees with demonstrated financial need and upon receipt of a replacement Entrance Fee for the Independent Living Residence most recently occupied by the resident. Living or Health Center units, on either a temporary or permanent basis. Such moves are to be made following consultation with Pennybyrn at Maryfield's medical staff, the Resident, family or legal representative, and Resident's attending physician.

K. Marriages/New Second Occupant

In the event a Resident marries, remarries, or elects to share a Residence with another person, the new spouse or other cohabitant may become a Resident of the Community as long as the new potential Resident meets all of the Corporation's admission criteria. The new spouse/cohabitant must pay the then-prevailing second person Monthly Service Fee. If the Resident's spouse does not meet the requirements of Pennybyrn at Maryfield for residency as a Resident, the Resident may terminate the Agreement in the same manner as provided in **Section IV.F.3.** above with respect to a voluntary termination, or the Resident's spouse may be approved for residency under special circumstances as agreed to in writing by Pennybyrn at Maryfield.

No Entrance Fee refunds shall be payable with respect to the unoccupied Residence. Refunds are made in accordance with **Section IV.I** above.

L. Inability to Pay

It is the policy of Pennybyrn at Maryfield that a Resident will not be dismissed nor will the Agreement be terminated solely due to the financial inability of the Resident to pay the Monthly Service Fee, as long as such inability to pay is due to circumstances beyond the control of the Resident. Pennybyrn at Maryfield will make reasonable efforts to maintain the Resident's status within the community even if unexpected financial difficulties make it impossible for Resident to keep up with monthly obligations. As long as a Resident has acted in good faith in his/her dealings with Pennybyrn at Maryfield, and Management determines that the facts justify special consideration, Management will make reasonable efforts to work with the Resident toward a confidential plan that will secure Resident's status in the Community.

Residents agree and understand that Pennybyrn at Maryfield's policy of assisting Residents through times of financial hardship is conditioned upon the Resident's efforts as well. Along these lines, Residents must not voluntarily weaken their ability to pay in any material fashion, Residents agree to cooperate with Management in providing additional financial information upon request and Residents must take action to shift personal assets in order to pay outstanding balances due Pennybyrn at Maryfield. Failure to assist as described herein may result in Pennybyrn at Maryfield's movement of the Resident to an alternative Residence or termination of the Agreement with such Resident. The Board of Directors determines the policies relating to financial assistance. The amount of assistance is determined on an individual basis and there is no guarantee of assistance to any individual.

NOW THEREFORE, for valuable consideration and the promises contained herein, the parties agree as follows:

1. ENTRANCE FEE

Resident's application has been accepted subject to the execution of this Residency Agreement and the conditions of residency provided for herein.

NOW THEREFORE, for valuable consideration and the promises contained herein, the parties agree as follows:

1. ENTRANCE FEE.

1.1 Amount and Payment. Resident hereby agrees to pay to the Retirement Community the Entrance Fee in accordance with the above-described Payment Schedule. In the event Resident does not exercise his right to rescind under Section 1.3 but at his/her discretion chooses not to take up occupancy in the Apartment specified in this Agreement, Resident continues to have the responsibility and obligation to make payments in accordance with the Payment Schedule.

In the event Resident fails to make payments in accordance with the Payment Schedule, Resident shall lose all right to be a Resident at the Retirement Community. Resident expressly agrees that immediately upon his default in payment in strict accordance with the above Payment Schedule, the Retirement Community shall have the right, but not the obligation, to Agreement with another party for the Assisted Living Apartment which is the subject of this Agreement. Resident's right to a refund of Entrance Fee is controlled exclusively by the provisions of Section 1.2 of this Agreement.

1.2 Refund Policy. The Entrance Fee shall be refundable if the Resident has made full payment in accordance with the Payment Schedule upon the happening of one of the following conditions:

a. If, on the Initial Occupancy Date, the Resident, for whatever reasons, does not take up occupancy in the Assisted Living Apartment, and has complied with the Payment Schedule, then the Entrance Fee paid shall be refunded in full less such fees and charges, if any, as are then owed the Retirement Community.

For purposes of calculating the refund due Resident under this Subsection 1.2, the first day of the 365 day period shall be deemed to be the Initial Occupancy Date; the last day of occupancy shall be deemed to be the day on which Resident has removed all his personal property from the Assisted Living Apartment and has delivered to PENNYBYRN AT MARYFIELD the original and all other keys to the Assisted Living Apartment, Resident hereby relinquishing his/her free access to the Assisted Living Apartment,

A refund is calculated as follows:

The refundable amount shall be due and payable to the Resident by the Retirement Community sixty (60) days after the Retirement Community has re-leased the Assisted Living Apartment. No interest shall be payable on the refundable amount.

- 1.3 Right to Rescind. Resident may rescind this Agreement within thirty (30) days following the later of the execution of this Agreement or the receipt of a disclosure statement meeting the requirements of Article 64 of Chapter 58 of the North Carolina General Statutes. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. Accordingly, we express no such opinion. Notes to Financial Statements

1. Nature of Business and Summary of Significant Accounting Policies

Nature of business

Maryfield, Inc. (the “Organization”) is a non-profit organization that provides housing, health care, and other related services to residents through the operation of a continuing-care retirement community (Pensboro at Maryfield) in High Point, North Carolina. The facilities include 49 cottages, 131 apartments (Independent Living), a community and wellness center with extensive amenities, 48 assisted-living apartments, and a 125-bed health care facility (Maryfield Health Care Households).

Management is currently undergoing an expansion project to consist of the construction of 42 additional independent living units and the construction of a new Transitional Rehabilitation Center that will include 24 private rooms and state of the art therapy facility. The Transitional Rehabilitation Rooms will be located in a new facility that will follow the existing rate structure. The project also includes additions and improvements in the independent living, assisted living, healthcare areas as well as upgrades and refurbishment to the exteriors of the buildings on the campus.

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

The Organization classifies its net assets as net assets with or without donor restrictions:

- *Net assets without donor restrictions* – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. The governing board has designated, from net assets without donor restrictions, net assets for board-designated endowments.
- *Net assets with donor restrictions* – Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity.

Cash and cash equivalents

Cash and cash equivalents include certain investments in highly liquid instruments with original maturities of three months or less when purchased. Cash and cash equivalents are carried at cost, which approximates fair value.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value.

Investment income (including realized and unrealized gains and losses on investments, interest income and dividends) is included in excess of revenues over expenses unless restricted by donor or law.

Accounts receivable, residents

The Organization uses the allowance method to determine uncollectible resident receivables. This allowance is equal to the estimated losses to be incurred in collection of the receivables and is based on historical collection experience and management's analysis of the current status of existing receivables.

Unconditional promises to give

Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. The Organization uses the allowance method to determine uncollectible unconditional promises to give. The allowance is based on prior years' experience and management's analysis of specific promises made.

Property, equipment and depreciation

Property and equipment purchased are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies net assets with donor restrictions to net assets without donor restrictions at that time.

Expenditures for maintenance, repairs, and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Capitalized development and construction costs represent the planning, development and construction costs incurred to date related to the Organization's expansion and renovation project.

The Organization reviews its long-lived assets for impairment annually or whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. For assets to be held and used, impairment is determined to exist if the estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. For assets to be disposed of, impairment is determined to exist if the estimated realizable value is less than the carrying amount. At September 30, 2021, the Organization has determined that no impairment indicators exist.

Depreciation is provided principally on the straight-line method over the following estimated useful lives:

Buildings	10 to 50 years
Land improvements	10 years
Furniture and equipment	3 to 10 years

Assets limited as to use

Assets limited as to use include trustee-held assets and statutory operating reserves. Trustee-held investments represent funds required by the Organization's bond documents to be held by a Trustee and include various bond interest accounts, debt service reserve accounts, and accounts to be used for expansion project. North Carolina General Statute Chapter 58, Article 64 sets forth minimum operating reserve requirements. The operating reserves are not required to be maintained in a separate escrow account and are comingled with unrestricted investments. The Organization was required to maintain a 25% operating reserve at year end. Assets limited as to use that are required to meet current liabilities of the Organization have been classified as current in the balance sheets at September 30, 2021 and 2020.

Capitalized bond issuance costs

Capitalized bond issuance costs at September 30, 2021 and 2020 include costs paid to issue the Series 2015 and Series 2020 bonds and are being amortized over the life of the bonds on a straight-line basis, which approximates amortization calculated using the effective interest method.

Refundable deposits

Refundable deposits represent deposits paid by future residents.

Deferred revenue from advance fees

Advance fees paid by a resident upon entering Independent Living or Assisted Living are recorded as either refundable deposits, or deferred revenue from advance fees. Deferred revenue is amortized to income using the straight-line method over the estimated remaining life expectancy of the resident. Periodic fees are charged for services and use of facilities which approximate the cost of delivering those services. Upon termination (moving or death), residents may be entitled to a refund of a portion of their advance fee. The refund amount depends on the type of contract and the length of residency.

Three alternative entrance fee plans provide for refunds to residents from re-occupancy proceeds. The traditional entrance fee option, prior to 49 months of occupancy, offers residents a refund equal to the entrance fee, less 2% per month of occupancy and a 2% administrative fee. The 50% refundable plan offers the resident a refund equal to 50% of the entrance fee after 24 months of occupancy. Prior to 24 months of occupancy, the resident is entitled to a refund of the entrance fee, less 2% per month of occupancy and a 2% administrative fee. The 90% refundable plan offers the resident a refund equal to 90% of the entrance fee after 8 months of occupancy. Prior to 8 months of occupancy, the resident is entitled to a refund of the entrance fee less 1% per month of occupancy and a 2% administrative fee.

Total contractual refund obligations in the event of move-out, death, or termination at September 30, 2021 and 2020 were \$16,283,387 and \$16,066,279, respectively.

Contributions support and donor-imposed restrictions

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor.

Support that is restricted by the donor is reported as an increase in net assets without donor restrictions, if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without restriction and reported in the statement of operations as net assets released from restrictions.

Net patient service revenue

Net patient service revenue is reported at the estimated net realizable amounts due from residents, third-party payors, and others for services rendered. Revenue under third-party payor agreements is subject to audit and retroactive adjustment. Provisions for estimated third-party payor settlements are provided in the period the related services are rendered. Differences between the estimated amounts accrued, and interim and final settlements are reported in operations in the year of settlement.

Revenue from Medicare and Medicaid accounted for approximately 26% and 28%, respectively, of the Organization's net patient service revenue for the year ended September 30, 2021, and 27% and 26%, respectively, of the Organization's net patient service revenue for the year ended September 30, 2020.

Income taxes

The Organization has been recognized by the Internal Revenue Service as a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (IRC) and is exempt from federal income taxes pursuant to Section 501(a) of the IRC. The Organization has no material uncertain tax positions requiring disclosure.

Excess of revenues over expenses

The statements of operations include excess of revenues over expenses. Changes in net assets without donor restrictions which are excluded from excess of revenues over expenses, consistent with industry practice, include restricted contributions and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Fair value of financial instruments

Except for fixed-rate, long-term debt, the carrying amounts of the Organization's significant financial instruments, none of which are held for trading purposes, approximate fair value at September 30, 2021 and 2020. Cash and cash equivalents, restricted cash, resident and other receivables, accounts payable, and accrued expenses approximate fair value because of the short maturities of these instruments. Unconditional promises to give approximate fair value because these instruments are recorded at net present value. Investments are reported at fair value. The line of credit (when used) approximates fair value because of their floating interest rate terms.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Obligation to provide future services

The Organization enters into continuing-care contracts with various residents. A continuing-care contract is an agreement between a resident and the Organization specifying the services and facilities to be provided to a resident over his or her remaining life. Under the contracts, based upon the level of service provided, the Organization has the ability to increase fees as deemed necessary.

Management has evaluated the need to record an obligation to provide future services. No liability was determined to be necessary, therefore no liability has been recorded.

Methods used for allocation of expenses among programs and supporting services

The Organization has presented a schedule of expenses by both function and nature in Note 17. The Organization allocates expenses on a functional basis among its various programs and supporting services. The schedule of expenses in Note 17 reports certain categories of expenses that are attributable to one or more program or supporting services of the retirement community. These expenses include salaries and benefits. Salaries and benefits are allocated based on an estimate of time spent on each activity.

Subsequent events evaluation

The Organization evaluated the effect subsequent events would have on the financial statements through January 27, 2022, which is the date the financial statements were issued.

2. Revenue Recognition

The Organization generates revenues, primarily by providing housing and health services to its residents. The following streams of revenue are recognized as follows:

Monthly service fees:

The contracts that residents select require an advanced fee and monthly fees based upon the type of independent living unit they are applying for. Resident fee revenue for recurring and routine monthly services is generally billed monthly in advance. Payment terms are usually due within 30 days. The services provided encompass social, recreational, dining along with assisted living and nursing care and these performance obligations are earned each month. Under ASC Topic 606, management has determined that the performance obligation for the standing obligation to provide the appropriate level of care is the predominate component and does not contain a lease component under ASC Topic 842. Resident fee revenue for non-routine or additional services are billed monthly in arrears and recognized when the service is provided.

Entrance fees:

The nonrefundable entrance fees are recognized as deferred revenue upon receipt of the payment and included in liabilities in the balance sheet until the performance obligations are satisfied. Management has determined the contracts do not contain a significant financing component as the advanced payment assures residents the access to health care in the future. These deferred amounts are then amortized on a straight-line basis into revenue on a monthly basis over the estimated life of the resident as the performance obligation is the material right associated with access to future services as described in FASB ASC 606-10-55 paragraph 42 and 51.

Health care services:

The Organization provides assisted and nursing care to residents who are covered by government and commercial payers. The Organization is paid fixed daily rates from government and commercial payers. The fixed daily rates and other fees are billed in arrears monthly. The monthly fees represent the most likely amount to be received from the 3rd party payors. Most rates are predetermined from Medicare and Medicaid. Under ASC Topic 606, management has elected to utilize the portfolio approach in aggregating the revenues under these revenue streams.

The Organization disaggregates its revenue from contracts with customers by payor source, as the Organization believes it best depicts how the nature, timing and uncertainty of its revenues and cash flows are affected by economic factors. See details on a reportable segment basis in the table below:

5. Beneficial Interest in Perpetual Trust

The Organization is the sole beneficiary of an irrevocable trust established for the purpose of providing assistance to those residents whose level of income is not sufficient to pay for nursing care. The fair value of the assets of the trust, which are under the control of an outside fiscal agent, are reported in the accompanying balance sheets as a beneficial interest in perpetual trust. Investment income disbursed from this trust is restricted for providing care to residents and amounted to \$90,000 for the years ended September 30, 2021 and 2020.

6. Long-Term Debt

Long-term debt at September 30 consists of the following:

On April 29, 2015, through the North Carolina Medical Care Commission (the Commission), the Organization issued \$66,135,000 Series 2015 First Mortgage Revenue Bonds to refinance current outstanding bonds at that time. The Series 2015 bonds mature in October 2015 through October 2035, with interest rates ranging from 1.25% to 5.00%. The Series 2015 bonds are collateralized by a security interest in all gross receipts, accounts, equipment, general intangibles, inventory, real estate, buildings, improvements, documents, instruments and chattel paper currently owned or hereafter acquired, and all proceeds thereof, excluding contract rights consisting

of charitable pledges. The trust indentures and loan agreements underlying the bonds contain certain covenants and restrictions.

On October 1, 2010, the Organization entered into a Shared Savings Agreement with its long-time HVAC contractor to replace the existing steam boiler plant with high efficiency hot water boilers and make other system upgrades for a total project cost of \$545,280. The equipment was financed with a ten-year note payable, at an annual interest rate of 8%, and was paid solely from the energy savings generated from the project. Balance was repaid in 2020.

On August 16, 2019, the Organization entered into a promissory note with a financial institution. The credit limit is \$5,000,000. The Organization had no outstanding balance on this loan as of September 30, 2021 and 2020. The Organization was required to make 24 monthly interest only payments beginning September 16, 2019 with interest calculated on the unpaid principal balances using an interest rate of 5% and then 17 monthly principal and interest payments beginning September 16, 2021 with an interest rate of 6%. Any outstanding principal balance and accrued interest would be due on February 16, 2023. The loan is collateralized by the pledged assets and mortgaged property. The advances were used for the sole purpose of funding pre-construction expenses, repairs, and renovations.

On September 1, 2020, through the Commission, the Organization issued \$47,840,000 Series 2020 First Mortgage Revenue Bonds to finance an expansion project. The Series 2020 bonds mature in October 2024 through October 2050, with interest rates ranging from 2.50% to 5.00%. The Series 2020 bonds are collateralized by a security interest in all gross receipts, accounts, equipment, general intangibles, inventory, real estate, buildings, improvements, documents, instruments and chattel paper currently owned or hereafter acquired, and all proceeds thereof, excluding contract rights consisting of charitable pledges. The trust indentures and loan agreements underlying the bonds contain certain covenants and restrictions.

The schedule below represents the future schedule of the estimated principal payments and maturities of long-term debt at September 30, 2021:

<u>Year ending September 30,</u>	<u>Series 2015 Scheduled Payments</u>	<u>Series 2020 Scheduled Payments</u>	<u>Total</u>

For the years ended September 30, 2021 and 2020, interest of \$1,440,515 and \$123,960, respectively, that pertains to the expansion project construction was capitalized.

7. Net Assets With Donor Restrictions

As disclosed in Note 1, contributions are accounted for based on donor-imposed restrictions. The following is a summary of net assets with donor restrictions at September 30:

	<u>2021</u>	<u>2020</u>
Employee education	\$ 74,750	\$ 588
Various capital items	130,246	330,987

Endowment funds	1,010,000	1,010,000
Beneficial interest in perpetual trust	<u>2,455,237</u>	<u>2,153,959</u>
	<u>\$ 6,789,123</u>	<u>\$ 10,360,833</u>

Net assets with permanent donor restrictions are restricted to investments in perpetuity, the income from which is expendable for providing care to residents.

8. Professional Liability Insurance

The Organization's malpractice insurance coverage is on a claims made basis with limits of coverage of \$1,000,000 for any one claim and \$3,000,000 in annual aggregate, with an excess liability policy of \$3,000,000 for any one claim and \$3,000,000 in annual aggregate. In the opinion of Management, the extent of adverse claim settlements of asserted and unasserted claims, if any, will not have a material adverse effect on the Organization's financial position.

9. Profit-Sharing Plan

The Organization sponsors a profit-sharing retirement plan with a 401(k) benefit (the "Plan") that covers substantially all employees. The Organization matches 100% of the employee's contributions up to 3% of their annual salary and matches 50% of the next 2% of the employee's contributions. Total contribution to the profit-sharing plan for the years ended September 30, 2021 and 2020 was \$192,589 and \$184,307, respectively.

10. Self-Insurance Plan

The Organization is partially self-insured for employees' health insurance through a medical self-insurance plan (the Plan). Under the Plan, for the years ended September 30, 2021 and 2020, the Organization is responsible for the first \$90,000 and \$85,000, respectively, of covered medical expenses per individual annually with an aggregate group claims limitation of \$2,527,764 and \$2,555,236, respectively. Any claims in excess of these limitations are covered by an insurance policy. Claims are expensed as incurred, including an estimate for claims incurred, but not yet reported, of approximately \$100,000 as of September 30, 2021 and 2020.

Expenses incurred under the Plan for the years ended September 30, 2021 and 2020 are as follows:

	<u>2021</u>	<u>2020</u>
Medical insurance premiums and administrative cost	\$ 874,789	\$ 784,699
Claims incurred	<u>1,381,631</u>	<u>1,219,181</u>
	<u>\$ 2,256,420</u>	<u>\$ 2,003,880</u>

11. Concentrations of Credit Risk

The Organization deposits its cash in federally insured financial institutions and uninsured brokerage houses. At September 30, 2021, the Organization's bank balances exceeded federally insured limits by approximately \$5,917,000.

The Organization grants credit without collateral to its residents. The mix of receivables from residents and third-party payors at September 30, 2021 and 2020 was as follows:

	<u>2021</u>	<u>2020</u>
Medicare	33%	27%
Medicaid	24%	18%
VA	6%	22%
Residents	<u>37%</u>	<u>33%</u>
	<u>100%</u>	<u>100%</u>

12. Related Party Transactions

From its inception in 1947, the Organization has been sponsored by the Poor Servants of the Mother of God (SMG), a congregation of sisters associated with the Roman Catholic Church. The sisters provide a variety of services to the Organization, including executive management and a variety of religious duties. Payments to SMG for these services were \$207,077 and \$203,017 for the years ended September 30, 2021 and 2020, respectively.

The Organization has a contract for grounds maintenance with a company related to one of the Organization's key management employees. Payments to this company amounted to \$228,035 and \$190,071 for the years ended September 30, 2021 and 2020, respectively.

13. Benevolent Assistance

The Organization has a benevolent assistance policy for residents who have demonstrated an inability to fully pay charges and provides discounted charges to these residents. The discounts provided to residents were approximately \$505,000 and \$434,000 for the years ended September 30, 2021 and 2020, respectively. In addition to this benevolent assistance, the Organization has unreimbursed costs related to participation in the Medicaid program of approximately \$2,131,000 and \$1,860,000 for the years ended September 30, 2021 and 2020, respectively. The amount identified for the year ended September 30, 2021 and 2020 is calculated using a cost to charge ratio based on information obtained from the prior year cost report and its relationship to gross revenue for the year.

14. Endowment Funds

The Organization's endowment fund was established to help support residents who have exhausted their financial resources. The Organization has interpreted the North Carolina Uniform Prudent Management of Institutional Funds Act (NC UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as net assets with donor restrictions (a) the original value of gifts donated to the donor-restricted endowment, (b) the original value of subsequent gifts to the donor-restricted endowment, and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The Organization has adopted investment and spending policies approved by the Board of Directors, that strive to generate spendable income and grow the market value of the assets without undue exposure to risk. The endowment is invested in a well-diversified asset mix of approximately 70% equities and 30% fixed-income assets and is managed by a group of professional fund managers overseen by an investment advisor and the Investment Committee of the Board of Directors.

The performance objective is to achieve a total return (net of fees and expenses) of the Consumer Price Index plus 4%. The Organization has a spending policy of appropriating for distribution up to 5% of the endowment fund's average fair value of the prior three years' fiscal year ends preceding the fiscal year in which the distribution is planned.

Endowment composition by type of fund as of September 30, 2021 is as follows:

15. Fair Value Measurements

Fair value, as defined under accounting principles generally accepted in the United States (GAAP), is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Organization's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities, and their placement within the fair value hierarchy levels.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds and US government and federal agencies.

Notes to Financial Statements

Level 3 investments include beneficial interests in perpetual trusts valued at the market price of the underlying investments in the trusts.

The tables below set forth the valuation of securities and investments by the above fair value hierarchy levels as of September 30:

*As further explained in Note 5, the Organization has a beneficial interest in a perpetual trust. The value of this trust is disclosed in level 3 in the fair value table above in accordance with GAAP and are valued at the market price of the investments. The underlying investments of the trust are substantially made up of publicly traded mutual funds in addition to some amounts considered cash and cash equivalents.

The following is a reconciliation of the beginning and ending balances of assets measured at fair value on a recurring basis classified as Level 3 during the years ended September 30, 2021 and 2020.

The following schedule reflects the Organization's financial assets to meet cash needs for general expenses within one year. The financial assets were derived from the total assets on the balance sheets by excluding the assets that are unavailable for general expenses in the next 12 months.

The Organization seeks to maintain sufficient liquid assets to cover three months' operating and capital expenses.

18. Commitments

The Organization entered into a contract in September 2020 with a construction company for the campus expansion and renovation. The total project with change orders is budgeted at approximately \$34,700,000 as of September 30, 2021 and is expected to be completed in March 2022. As of September 30, 2021, approximately \$15,000,000 remains under the contract.

19. COVID-19

In March 2020, the World Health Organization declared the outbreak of COVID-19, a novel strain of Coronavirus, a pandemic. The coronavirus outbreak is disrupting supply chains and affecting production and sales across a range of industries. The extent of the impact of the outbreak on the Organization's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on employees and vendors, and governmental, regulatory and private sector responses. The accompanying financial statements do not reflect any adjustments as a result of the increase in economic uncertainty which continues through the issuance date.

20. Provider Relief Funds

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security (CARES) Act was signed into law on March 27, 2020. One provision of the CARES Act was the establishment of the Provider Relief Fund, administered by the U.S. Department of Health and Human Services (HHS). The Provider Relief Fund (PRF) is being distributed to healthcare providers throughout the country to support the battle against the COVID-19 outbreak. During the year ended September 30, 2020, the Organization has received approximately \$1,200,000 in distributions from the PRF. These funds are intended to reimburse qualifying expenses and lost revenues attributable to COVID-19 and are subject to the terms, conditions, and regulatory requirements set forth by HHS. If the total distributions received by the Organization exceed the cumulative amount of qualifying expenses and lost revenues attributable to COVID-19 through the period of availability, any excess funding may be subject to recoupment. The Provider Relief Funds are accounted for as voluntary nonexchange transactions and related revenues will be recognized as other operating revenue as eligibility criteria are met. The

Notes to Financial Statements

Organization has recognized approximately \$680,000 and \$390,000 as other operating income on the accompanying statement of operations for the years ended September 30, 2021 and 2020, respectively. The Provider Relief Funds are subject to audit by HHS which may result in disallowed expenditures which may be subject to recoupment. Such amounts, if any, cannot be determined at this time.

Summary of Significant Projection Assumptions and Rationale

1. General

The accompanying financial projection presents, to the best of the knowledge and belief of the management of Maryfield, Inc. (d.b.a. Pennybyrn at Maryfield) (the “Corporation” or “Management”), the Corporation’s expected financial position, results of operations, and cash flows as of and for each of the five years ending September 30, 2026. Accordingly, the accompanying financial projection reflects Management’s judgment as of February 28, 2022, the date of this report, of the expected conditions and its expected course of action during the projection period assuming that the hypothetical assumptions defined below occur. However, even if the hypothetical assumptions stated below were to occur, there will usually be differences between the projected and actual results, because events and circumstances frequently do not occur as expected, and those differences may be material.

The projection also presents the financial information related to the planned expansion project to consist of 42 additional independent living units and the construction of a new Transitional Rehabilitation Center.

Management’s purpose in releasing this financial projection is for inclusion in the Corporation’s annual disclosure statement in accordance with Chapter 58, Article 64, of the North Carolina General Statutes. Accordingly, this report should not be used for any other purpose. The assumptions disclosed herein are those that Management believes are significant to the projection.

Hypothetical Assumptions

A hypothetical assumption is an assumption used in a financial projection to present a condition or course of action that is not necessarily expected to occur but is consistent with the purpose of the presentation. Hypothetical assumptions are not derived from sources, which are based upon supporting documentation such as contracts, agreements, or other empirical data. Management has prepared its financial projection assuming the hypothetical assumption that the Corporation’s yet to be constructed independent living units are successfully marketed and achieve and maintain projected occupancy levels.

Background of the Corporation

The Corporation was founded in November 1947 and incorporated under the laws and regulations of the state of North Carolina as a nonprofit organization in 1950 to provide housing and long-term care for the elderly. The Corporation currently owns and operates a continuing care retirement community (“CCRC” or “Community”) on an approximate 72-acre campus in High Point, North Carolina. The facilities include 49 cottages and 131 apartments (“Independent Living”), a community and wellness center with extensive amenities, 48 assisted-living apartments and a 125-bed health care facility (“Maryfield Health Care Households” or “Health Center”).

2. Description of the Residency and Care Agreements

Under the terms of the Residency and Care Agreement (the "Agreement"), the Corporation generally accepts as residents ("Resident" or "Residents") those persons at least 62 years of age at the time of occupancy (only one member of a couple must meet this requirement) who are able to care for themselves with or without assistance and are able to demonstrate the necessary financial resources to meet the Corporation's minimum fee requirements. As defined in the Agreement, a Resident is required to pay an initial entrance fee ("Entrance Fee") and also a monthly service fee ("Monthly Service Fee") on an on-going basis. Payment of these amounts entitles Residents to occupy and use the residence ("Residence"), common areas, amenities, programs, and services of the Corporation during the term of the Agreement.

While the Resident occupies a Residence, services provided by the Corporation include: the right to occupy the selected Residence; all standard utilities for apartments and cottages (all Residents will be responsible for their own telephone); Residents in Independent Living will receive a meal a day, housekeeping and flat linen services; general maintenance; trash removal and landscaping for Residences; common areas and grounds; lighted surface parking; scheduled transportation; twenty-four hour emergency response system and security services; planned social, recreational, spiritual, educational and cultural activities; wellness and case management; and use of Community common areas, including private dining and meeting rooms, lounges, lobbies, library, business center, social and recreational rooms, wellness center and other common activities.

In addition to the items included in the Monthly Service Fee, certain services are available to Residents for an additional charge. These services include, but are not limited to: covered parking spaces (depending on availability); barber and beauty services; personal care and assistance services; personal laundry or dry cleaning; private transportation; guest meals and personalized catering events; additional meals while utilizing the Community's Health Center residence ("Health Center Residence"); nursing care and assisted living services and supplies; and other additional maintenance and housekeeping services performed beyond the normal scope of services offered by the Corporation.

Maryfield, Inc. (d.b.a. Pennybyrn At Maryfield)
Summary of Significant Projection Assumptions and Rationale

To reserve a Residence, prospective Residents will make a ten percent (10%) deposit as described in the Agreement.

Health care benefit

Under the Agreement, the Corporation will provide services above those covered by Medicare or other third-party insurance to the Independent Living Resident in a Health Center Residence for fifteen (15) days annually (the "Health Care Benefit"). This Health Care Benefit may be carried over into future years with a cumulative annual benefit not to exceed forty-five (45) days at no additional charge for each Resident, provided that the Resident remains an Independent Living Resident.

Terminations and refunds

The Resident may terminate the Agreement within thirty (30) days of execution of the Agreement or the receipt of a Disclosure Statement that meets the requirements of N. C. G. S. § 58-64-20 (the "30-Day Rescission Period"). The Resident will not be required to move into a Residence before the expiration of this 30-Day Rescission Period. In the event of rescission, the Resident shall receive a refund of all monies transferred less (i) periodic charges specified in the Agreement and applicable only to the period a Residence was actually occupied by the Resident; and (ii) any non-standard costs specifically incurred by the Corporation at the Resident's request and described in the Agreement or any amendment signed by the Resident.

The Resident may also voluntarily terminate the Agreement after the 30-Day Rescission Period, and prior to the date of occupancy, provided that the Resident gives written notice of such termination. Any such refund paid will equal the ten percent (10%) deposit, less (i) a service charge of one thousand (\$1,000) dollars; and (ii) any non-standard costs specifically incurred by the Resident's request. Any such refunds as described above shall be paid by the Corporation within sixty (60) days following the receipt of written notification of such termination.

Following expiration of the 30-Day Rescission Period and after the Resident's occupancy of the Residence, the Agreement may be terminated at any time by the Resident by providing at least thirty (30) days written notice. The amount of refund due shall be determined according to the applicable Entrance Fee amortization schedule described in the Agreement. If a Resident dies following the 30-Day Rescission Period, but prior to occupying a Residence, or if, on account of illness, injury or incapacity, a Resident would be precluded from occupying a Residence under the terms of the Agreement, the Agreement is automatically cancelled and the Resident or legal representative of the Resident shall receive a refund of all money or property transferred, except for any monies already spent or committed to a contractor in connection with any upgrade of such Residence as described the Agreement. Any such refund due is contingent upon payment in full of a new Entrance Fee and re-occupancy of the Residence by a new Resident.

Entrance fee options

The Corporation offers three Entrance Fee plans for occupancy of a Residence. The Resident agrees to pay an Entrance Fee as a condition of becoming a Resident. The Resident may choose from: a zero percent (0%) refundable entrance fee plan ("Plan A" or the "Traditional Amortizing Entrance Fee Plan"); a 50 percent (50%) refundable entrance fee plan ("Plan B"); or a 90 percent (90%) refundable entrance fee plan ("Plan C"). Management has assumed that approximately 68 percent (68%) of the Residents will be enrolled under Plan A, and 32 percent (32%) will be enrolled under Plan C, during the projection period.

Maryfield, Inc. (d.b.a. Pennybyrn At Maryfield)
Summary of Significant Projection Assumptions and Rationale

The Entrance Fee options and related amortization schedules are as follows:

Entrance Fee Option	Amortization Schedule
1. Plan A - Traditional Amortizing Entrance Fee	An initial 2% non-refundable service fee, plus 2% per month for 49 months. After 49 months of occupancy, no refund is paid.
2. Plan B - 50% Refundable Entrance Fee	An initial 2% non-refundable service fee, plus 2% per month for 24 months. Refund is never less than 50% to the Resident.
3. Plan C - 90% Refundable Entrance Fee	An initial 2% non-refundable service fee, plus 1% per month for 8 months. Refund is never less than 90% to the Resident.

The Resident may notify the Corporation in writing of a change in selection of the above chosen Entrance Fee option on or before the date that the balance of the Entrance Fee is due, as provided in the Agreement. Without written approval of Management, the Resident may not change the option selected after the date the balance of the Entrance Fee is due.

3. Significant Accounting Policies

Use of estimates

The preparation of prospective financial statements in conformity with accounting principles generally accepted in the United States of America requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the prospective financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of accounting and presentation

The accompanying prospective financial statements included in the projection have been prepared on the accrual basis of accounting and in accordance with the accounting principles generally accepted in the United States of America ("GAAP"). Significant rationale are described in the appropriate assumptions and notes to the prospective financial statements. The assumptions described are not all-inclusive.

Income taxes

The Corporation has been recognized by the Internal Revenue Service as a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code ("IRC") and is exempt from federal income taxes pursuant to Section 501(a) of the IRC. No material uncertain tax positions are expected to exist throughout the projection period.

Cash and cash equivalents

Cash and cash equivalents include certain investments in highly liquid instruments with original maturities of three months or less when purchased. Cash and cash equivalents are carried at cost, which approximates fair value.

Accounts receivable, patients

The Corporation uses the allowance method to determine uncollectible patient receivables. This allowance is equal to the estimated losses to be incurred in collection of the receivables. This allowance is based on historical collection experience and management's analysis of the current status of existing receivables.

Unconditional promises to give

Contributions are recognized when the donor makes a promise to give to the Corporation that is, in substance, unconditional. The Corporation uses the allowance method to determine uncollectible unconditional promises to give. The allowance is based on prior years' experience and management's analysis of specific promises made.

Restricted and unrestricted revenue and support

Contributions received are recorded as unrestricted or restricted support, depending on the existence and/or nature of any donor restrictions.

Support that is restricted by the donor is reported as an increase in net assets without donor restriction if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with restriction are reclassified to net assets without restriction and reported in the projected statements of operations and changes in net assets as net assets released from restrictions.

Investments

Investments in equity securities with readily determinable fair values, and all investments in debt securities, are measured at fair value. Investment income (including realized and unrealized gains and losses on investments, interest income, and dividends) is included in excess of revenues over (under) expenses unless restricted by donor or law.

Assets limited as to use

Assets limited as to use represent funds required by the Corporation's bond documents to be held by a trustee and include various bond interest accounts, construction accounts, and debt service reserve accounts, along with operating reserves required by state statute and certain net assets with donor restriction.

Property, equipment, and depreciation

Property and equipment purchased are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Corporation reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Corporation reclassifies net assets with restriction to net assets without restriction at that time.

Expenditures for maintenance, repairs, and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Capitalized development and construction in progress costs represent the planning, development and construction costs incurred to date related to its expansion project.

Maryfield, Inc. (d.b.a. Pennybyrn At Maryfield)
Summary of Significant Projection Assumptions and Rationale

The Corporation reviews its long-lived assets for impairment annually or whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. For assets to be held, impairment is determined to exist if the estimated future cash flows, undiscounted and without interest charges, are less than the carrying amount. For assets to be disposed of, impairment is determined to exist if the estimated realizable value is less than the carrying amount.

Depreciation is provided principally on the straight-line method over the following estimated useful lives:

Buildings	10 to 50 years
Land improvements	10 years
Furniture and equipment	3 to 10 years

Issuance costs

Capitalized bond issuance costs include costs paid to issue the Series 2015 Bonds and the Series 2020 Bonds. The costs incurred related to the issuance of the debt will be amortized over the life of the bonds.

Refundable deposits

Refundable deposits represent deposits paid by future residents.

Refundable fees and deferred revenue from advance fees

Initial fees paid by a Resident upon entering Independent Living or Assisted Living are recorded as refundable fees or deferred revenue from entrance fees. Deferred revenue is amortized to income using the straight-line method over the estimated remaining life expectancy of the resident. Periodic fees are charged for services and use of facilities which approximate the cost of delivering those services. Upon termination (moving out or death), Residents may be entitled to a refund of a portion of their advance fee. The refund amount depends on the type of contract and the length of residency. The timing of the refund is dependent upon resale of the unit.

Health center revenue

Health Center revenue is reported at the estimated net realizable amounts due from residents, third-party payors, and others for services rendered. Revenue under third-party payor agreements is subject to audit and retroactive adjustment. Provisions for estimated third-party payor settlements are provided in the period the related services are rendered. Differences between the estimated amounts accrued and interim and final settlements are reported in operations in the year of settlement.

Excess of revenue and support over expenses

The projected statements of operations include excess of revenue and support over expenses. Changes in net assets without restriction, which are excluded from excess of revenue and support over expenses consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions, which by donor restriction were to be used for the purposes of acquiring such assets).

Revenue

Resident Service Revenue

Resident service revenue is based upon charges for services provided to Residents of the Independent Living units and the Health Center. Resident service revenue for independent-living Residents is based upon the assumed occupancy and the Monthly Service Fees of the respective units.

Description of the Project

The expansion project (the "Project") began in October 2020. The Project is to consist of the construction of 42 additional independent living units ("New Independent Living Units"), and the construction of a new Transitional Rehabilitation Center that will include 24 private rooms and state of the art therapy facility. The Transitional Rehabilitation Rooms will be located in a new facility that will follow the existing rate structure. The Project also includes additions and improvements in the independent living, assisted living, healthcare areas, as well as upgrades and refurbishment to the exteriors of the buildings on the campus. As of December 31, 2021 all of the New Independent Living Units are sold and Management has collect a 10% deposit for each unit.

Reservation process

Prospective residents of the Community complete the following process to reserve an Independent Living Unit.

In order to reserve an Existing Independent Living Unit, a prospective resident must execute a residency agreement ("Residency Agreement"), provide recent medical history, provide a self-disclosure of his or her finances and place a deposit equal to 10 percent of the Entrance Fee (the "10 Percent Deposit") on the selected existing Independent Living Unit. The balance of the Entrance Fee is due on or before the occupancy date (the "Occupancy Date") of the Independent Living Unit.

Maryfield, Inc. (d.b.a. Pennybyrn At Maryfield)
Summary of Significant Projection Assumptions and Rationale

To collect reservation deposits for the New Independent Living Units, prospective residents sign a reservation agreement (the "Reservation Agreement") and pay the applicable deposit amount ("Depositors") which is held in an escrow account on behalf of Residents in accordance with North Carolina General Statute §58-64-35 and earn market rate interest and is fully refundable, including the interest earned. Depositors would execute a Residency Agreement upon payment of the Entrance Fee at or prior to move-in.

Residency agreement

The terms of the residency agreement are identified in Footnote 2 Description of the Residency and Care Agreements.

Development agreement

Maryfield, Inc. and Action Pact Development, LLC (the "Developer") entered into a Development Agreement (the "Development Agreement") on April 16, 2019 under which the Developer is expected to provide development consulting services related to the Project.

For its services under the Development Agreement, the Corporation is obligated to pay the Developer a development fee of approximately \$1,800,000 (the "Development Fee").

Summary of financing

Total financial requirements to complete the Project are assumed to approximate \$58,596,000. The Corporation is funding these financial requirements primarily through the issuance of \$47,840,000 North Carolina Medical Care Commission Retirement Facilities First Mortgage Revenue Bonds (Pennybyrn at Maryfield Project, Series 2020 (the "Series 2020 Bonds"), consisting of the Series 2020A Bonds and the Series 2020B Bonds.

Summary of revenue and entrance fee assumptions

Independent Living Unit Revenue

The Existing Independent Living Units are assumed to maintain a 95.0 percent occupancy level throughout the projection period, and the New Independent Living Units are assumed to achieve a 94.0 percent occupancy level in January 2023 and remain at that level throughout the projection period.

All Residents are assumed to pay the current charges at the prevailing market rate established by the Corporation except for any Healthcare Benefit that may be available.

Licensed nursing

The Health Center provides services to private-pay, Medicaid, and Medicare Residents.

Amortization of entrance fees

Management has assumed that approximately sixty-eight percent (68%) of the Residents will be enrolled under Plan A, and thirty-two percent (32%) will be enrolled under Plan C of the Existing Independent Living Units, during the projection period. Entrance fees under Plan A and the nonrefundable portion of entrance fees under Plan C are recorded as deferred revenue and amortized to income using the straight-line method over the estimated remaining life expectancy of the resident.

Provider relief funds

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security ("CARES") Act was signed into law on March 27, 2020. One provision of the CARES Act was the establishment of the Provider Relief Fund, administered by the U.S. Department of Health and Human Services (HHS). The Provider Relief Funds ("PRF") is being distributed to healthcare providers throughout the country to support the battle against the COVID-19 outbreak. These funds are intended to reimburse qualifying expenses and lost revenues attributable to COVID-19 and are subject to the terms, conditions, and regulatory requirements set forth by HHS. The Organization received approximately \$1,200,000 during the year ended September 30, 2020 and has projected to recognize \$103,000 in fiscal year 2022 which represents the remaining funds not recognized as of September 30, 2021.

The Provider Relief Funds are subject to audit by HHS which may result in disallowed expenditures which may be subject to recoupment. Such amounts, if any, cannot be determined at this time.

2021 Statement of Operations

Tickmarks on the Comparison of Forecasted and Audited Statement of Operations

These notes provide explanation of variances over 10% and \$100,000.

A. Amortization of entrance fees is based upon the initial fees received that are amortized over the life expectancy of the resident. During fiscal year 2021 Pennybyrn did not experience the number of resident turnover that was originally forecasted.

B. Independent Living revenue was less than forecasted due to the lower number of turnovers and the fact that it took longer to sell the units that became available and longer to refurbish and make the resold units ready for move-in.

C. Assisted Living and Memory Support Center revenue is lower than forecast due to the fact that occupancy was down for the fiscal year. The vacant beds were "closed beds" meaning that Pennybyrn is required to keep those beds available only for residents of the Independent Living areas of Pennybyrn. During the fiscal year, residents of Pennybyrn did not require these beds.

D. Health Center revenue is lower than forecast due to the occupancy level being less than forecasted.

E. Other income increased due to the recognition of reimbursements received from the federal government for COVID-19 expenses incurred during the fiscal year.

F. Investment income was greater than forecast since some gains were recognized through sales during the year and the investment in mutual funds that declared dividends and capital gains at the end of the calendar year were greater than anticipated.

G. Healthcare household costs were lower than forecast because of reduced occupancy and Covid supply reimbursements received during the year.

H. Administrative expenses for the year exceeded the forecast due to significantly more health insurance claims filed under our self-insured health plan and additional salary and wage expenses incurred due to the protective measures incurred due to COVID-19.

I. Marketing expenses for the fiscal year were less than the forecast due to COVID-19. Our marketing department was unable to conduct meetings and marketing events to market our existing Independent Living units and our 42 new apartment units under construction.

J. Plant operating costs were lower due to staff attrition, lower overall utility costs, lower cost of internal repairs and lower costs to maintain the life-safety systems.

K. Dining costs were reduced because Covid caused the dining areas to be closed and meals were delivered to residents in disposable containers.

L. Interest expense was reduced as per the original bond amortization table, there was no requirement to borrow on the line of credit and interest that was incurred related to the 2020 Bonds is capitalized during the period of construction.

M. Depreciation expense for the current fiscal year was less than forecasted since the none of the newly constructed projects were completed and put into service for depreciation purposes.
